DNP Electives Fall 2019

Policy:
Post-masters and DNP students have the option to enroll in Vanderbilt University School of Nursing Specialty (MSN) nursing courses or an independent study to fulfill the elective requirements. The elective course must provide content applicable to the student’s current or potential practice or the scholarly project.

Procedure:
1) Prerequisite: Approval of student’s advisor and the course coordinator
2) The student must submit a written request for the elective approval to the student’s advisor.

Nursing 8066: Curriculum Strategies for Health Professional Education
(Required course for students who have received a Nurse Faculty Loan) This course introduces the student to the foundations of learning theory and learning styles. The impact of technology on learning practices and the appropriate use of technology to facilitate learning are emphasized. Students will create electronic elements for effective learning and use a course management system. Copyright and fair use issues are discussed. Overall curriculum strategies that integrate content, organization, informatics and sequencing of courses are discussed. Students will design a learning program that integrates learning styles, technology use and a course management system. Prerequisite: Admission to the DNP program or consent of faculty. Fall [3] Kennedy.

This is a 3 credit hour elective course designed for graduate students interested in global health and will consist of seven units: Introduction to Global Health, Health Disparities, Health Care Delivery Systems, Evidence-based Practice, Non-communicable and Communicable illnesses, Trauma and Violence and Effective, Ethical Models for Global Health Engagement. The course will focus on best practices for allocating scarce resources and engaging in interdisciplinary global health work with diverse communities from a cultural, ethical and clinical perspective. Students will engage in learning through readings, synchronous and asynchronous discussions, case studies and written assignments. This course is designed for students interested in caring for and empowering underserved populations locally and abroad. Fall, Spring [3] Ziegler.

N8073: Genetics in Clinical Practice
This is an elective course which focuses on the genetic basis of disease, genetic risk assessment and counseling, clinical genetics and management guidelines. The course will serve as the basis for the healthcare professional to holistically integrate genetic/genomics, epigenetics, and scientific concepts into personalized health care. This course is provided for doctoral and graduate students and offered during the spring, summer, and fall semesters. Fall, Spring, Summer [2] Connors.
DNP Electives Fall 2019

Nursing 8080: Independent Study (Contract between student and faculty sponsor (and advisor), variable credits [1-4]).

Individualized study with content related to the student's practice and scholarly project. A contract is made between the student and faculty adviser, with copies for the student, faculty adviser, program director, and student's academic record. The student is responsible to identify study objectives, identify DNP competencies that are addressed within the course, specify the primary DNP competency related to this study and negotiate learning activities and evaluation method. Fall, Spring, Summer.

Prerequisite: Consent of faculty adviser. [Variable credit 1-3] Staff.

The independent study agreement is available at:
https://nursing.vanderbilt.edu/students/current/forms.php

Students must print the form, fill it out, collect appropriate signatures, and return to VUSN Registrar, Sarah Donahoe.
