LETTER FROM THE DEAN

Dear Students,

On behalf of the faculty and staff of Vanderbilt University School of Nursing, I am pleased to welcome all new and continuing students. We expect that your student experience at Vanderbilt will be filled with many diverse and exciting opportunities for both personal and professional growth. Roles in the healthcare professions are changing faster now than ever before, and we expect to see our graduates as leaders in a variety of advanced practice roles.

I hope you will find this Student Handbook a valuable resource in addressing your questions and concerns as a VUSN student. It is essential that you familiarize yourself with our policies and procedures and use this for general information about the School and the Vanderbilt University community.

You have my very best wishes for a successful and enjoyable year.

Colleen Conway-Welch, PhD, CNM, FAAN
Nancy & Hilliard Travis Professor of Nursing
Dean

**DNP Program Office**
Administrative offices for the Doctor of Nursing Practice Program are located within the School of Nursing at:

Vanderbilt University School of Nursing
Godchaux Hall, 6th Floor
461 21st Avenue South
Nashville, TN 37240
Telephone: (615) 343-8419
Fax: (615) 322-7505
[www.nursing.vanderbilt.edu](http://www.nursing.vanderbilt.edu)

The following faculty and staff are responsible for the management and administration of the program:

**Program Director**
Terri Allison Donaldson, DNP, ACNP-BC
Telephone: (615) 343-7732
Email: terri.donaldson@vanderbilt.edu

**Program Administrative Manager**
Mindy Kessler
Telephone: (615) 343-7371
Email: mindy.d.kessler@vanderbilt.edu

**Program Department Education Coordinator**
Pam Pettis
Telephone: (615) 343-8419
Email: pam.pettis@vanderbilt.edu

**Vanderbilt University School of Nursing (VUSN)**
Within the VUSN organizational structure, the Doctor of Nursing Practice Program is in the portfolio of the Senior Associate Dean for Academics, Dr. Linda Norman located at:

Godchaux Hall – 2nd floor
Office of the Senior Associate Dean for Academics
461 21st Avenue South
Nashville, TN 37240
Telephone: (615)322-3800
Toll Free: 1-888-333-9192
[www.nursing.vanderbilt.edu](http://www.nursing.vanderbilt.edu)

**Adjunct Instructors**
Greta L. Fowinkle, DNP, RN, CMAC
James L. Harris, DSN, MBA, RN
PROGRAM INFORMATION:
ACADEMIC REQUIREMENTS AND REGULATIONS

DNP Program and Curriculum

Purpose
The Doctor of Nursing Practice program prepares practice scholars as leaders in translating evidence-based knowledge into clinical practice, improving health care outcomes, and strengthening nursing management and education within public and private organizations.

Philosophy
Practice doctorate education moves the student to critically appraise concepts that address the role of advanced practice nurses caring for multicultural populations across the life span with unique health care needs and within the context of a complex health care environment. The curriculum builds on the student’s advanced practice expertise – clinical and/or systems, while enhancing leadership and inquiry skills. The process of inquiry facilitates innovative thinking and the ability to appraise research and other evidence to enhance nursing practice and the delivery of patient care. Moreover, D.N.P. education provides students with the knowledge and skills for planning and initiating change within a health care system as members and leaders of inter-professional teams, recognizing the current state of the evidence and societal needs.

D.N.P. students and faculty have diverse professional and cultural backgrounds, which strengthens the academic environment. Creative thinking is encouraged within the classroom and via technology-enhanced communications. Likewise, a spirit of inquiry evolves through faculty-student mentoring experiences.

D.N.P. Program Objectives
Central to the D.N.P. curriculum is the application of evidence-based practice methods within practice settings throughout the program of study. Evidence-based practice is classically defined as the integration of best research evidence with clinical expertise and patient values to facilitate clinical decision making.

The terminal objectives of the D.N.P. program are to produce a practice scholar who will be able to:

1. Assess, analyze, evaluate, and manage complex health environments serving diverse populations to improve patient and population health outcomes;
2. Apply clinical scholarship and available evidence to make clinical and system decisions that reflect professional values and ethical standards;
3. Develop, test, and disseminate standards of care, clinical practice models and health policy using informatics, organizational and systems leadership skills;
4. Advocate for clinical prevention, population health initiatives and evidence-based health policy through collaboration with other professionals and stakeholders.
**Overview**

THE D.N.P. program prepares practice scholars as leaders in translating evidence-based knowledge into clinical practice, improving health care outcomes, and strengthening nursing management and education within public and private organizations. Admission to the post-master’s D.N.P. program is through the School of Nursing. Successful applicants to the program are those whose previous academic performance, written goal and practice inquiry statements and letters of recommendation match the school’s philosophy and faculty expertise. Increased complexity in health care, the explosion of knowledge and technology, and national issues related to patient safety and quality improvement call for fundamental changes in the education of all health care professionals. Redesigning care processes are indicated, with information technology systems enhancing evidence-based decision making at both the macro- and micro-system levels. Addressing the above challenges identified by the IOM and other national organizations, the American Association of Colleges of Nursing published a position paper in 2004 targeting the adoption of the D.N.P. as the terminal degree for the APN. Advanced nursing practice is any form of nursing intervention that influences health care outcomes for individuals or populations, including the direct care of individual patients, management of care for specific populations, administration of nursing and health care organizations, and the development and implementation of health care policy. VUSN has a long history of educating advanced practice nurses at the Master’s level in both direct and indirect patient care, e.g., Nurse Practitioners, Certified Nurse Midwives, Clinical Nurse Specialists, Nursing Informatics Specialists, and Health Systems Managers. Nurses prepared in practice doctorate programs have a blend of clinical, organizational, economic, and leadership skills to enable them to critique nursing and other clinical scientific findings and design programs of care delivery that are locally acceptable, economically feasible, and have significant impact on health care outcomes.

**Degree Requirements**

The program requires 74 credit hours of study of which 39 may be transferred from master’s work, pending review and approval. The curriculum includes 35 hours of required coursework and can be completed either full time in four semesters or part time in six semesters. Full-time and part-time study options are available. Courses are delivered using a combination of formats with one on-site intensive experience each semester, comprised of 5 days each with the remainder of the coursework completed using distance learning technologies. Requirements for the degree include successful completion of advanced coursework to include a minimum of 500 hours of practice integration and the successful completion and defense of a scholarly project. All degree requirements must be completed within five years of enrollment. A hallmark of the practice doctorate is the successful completion of a scholarly project. The scholarly project embraces the synthesis of both coursework and practice application, a deliverable product reviewed and evaluated by a faculty mentor and scholarly project committee. Dissemination modes include a scholarly presentation. The nature of the scholarly projects varies; projects are related to advanced practice in the nursing specialty and benefit a group, population, or community rather than an individual patient. Projects most often evolve from practice and may be done in partnership with another entity, e.g., clinical agency, health department, government, community group. Types of scholarly projects may include: quality improvement initiatives; implementation and evaluation of evidence-based practice guidelines; policy analysis; the design and use of databases to retrieve information for decision-making, planning, evaluation; the design and evaluation of new models of care; designing and evaluating health care programs.
Curriculum Overview
The program requires 35 credit hours of study of which 6 may be transferred from another D.N.P. program (pending review and approval). The 35 credit hours required for graduation are detailed below. Nurse Faculty Loan recipients may be required to take additional credit hours.

Required Courses
NURS 410 Evidence-Based Practice I: The Nature of Evidence (2 credit hours)
NURS 412 Informatics for Scholarly Practice (2 credit hours)
NURS 414 Statistics in Health Sciences (3 credit hours)
NURS 420 Integrative Application of Evidence-Based Practice I (1 credit hour)
NURS 422 Evidence-Based Practice II: Evaluating and Applying Evidence (3 credit hours)
NURS 424 Epidemiology (3 credit hours)
NURS 430 Integrative Application of Evidence-Based Practice II (1 credit hour)
NURS 432 Health Care Economics and Finance (3 credit hours)
OR NURS 434 Advanced Health Economics and Finance (3 credit hours)
NURS 440 Integrative Application of Evidence-Based Practice III (2 credit hours)
NURS 442 Quality Improvement and Patient Safety (3 credit hours)
NURS 444 Management of Organizations and Systems (3 credit hours)
OR NURS 445 Evidence-Based Management in Health Care Organizations and Systems (3 credit hours)
NURS 452 Health Policy (2 credit hours)
NURS 454 Legal and Ethical Environment (3 credit hours)
NURS 410. Evidence-Based Practice I: The Nature of Evidence. This course explores the philosophical underpinnings for nursing knowledge relevant to the role of the Doctor of Nursing Practice (DNP). Methods by which nursing knowledge is generated and levels of evidence informing nursing practice will be investigated. Students will identify and analyze concepts relevant to their topic of interest. Pre/corequisite: 414. Fall. [2] Christenbery and Donaldson.

NURS 412. Informatics for Scholarly Practice. This course provides an overview of informatics, the transformation of data into information, knowledge, decisions and actions to improve outcomes. To take advantage of electronic data mines, scholars of the future will need to understand the basics of databases and the structure of vocabularies. Knowledge management to support evidence-based practice will be a critical skill. In addition, this course prepares the student to use available technology tools to present, interpret and organize data. Admission to the DNP program or permission of instructors. Fall. [2] Trangenstein and Weiner.

NURS 414. Statistics in Health Sciences. This course provides an overview of the logic and appropriate use of statistical techniques most commonly reported in the research literature of the health professions. The spectrum of topics encompasses most univariate parametric and nonparametric procedures, including correlational and repeated measures analyses. Across the varied topics, emphasis is placed on: 1) becoming knowledgeable of the underlying logic of each statistical technique, 2) the appropriate use and underlying assumptions of the procedure, 3) interpretation of results from statistical software, and 4) evaluation of published results using statistical procedures. Admission to the DNP program or permission of instructors. Spring and Fall. [3] Gordon

NURS 420. Integrative Application of Evidence-Based Practice I. This is the first of a four-course series that provides the DNP student with mentored opportunities to develop an independent, analytic scholarly project proposal focusing on problems of practice within specific populations. To complete the objectives of this course successfully, the student is expected to practice a minimum of 125 hours in a practice area related to their topic of interest. Prerequisite: 410, 412, 414, 424; Pre/corequisite: 422. Spring and Fall. [1] Love and McArthur.

NURS 422. Evidence-Based Practice II: Evaluating and Applying Evidence. This course will build on Evidence-Based Practice I by preparing DNP students to evaluate evidence designed to improve clinical outcomes related to their identified topic of interest, and to translate the evidence into practice environments. Prerequisite: 410, 412, 414; Pre/corequisite: 422, 442. Spring. [3] Donaldson and Moore.

NURS 424. Epidemiology. Epidemiology focuses on the distribution and determinants of disease frequency in human populations. This course prepares the student to use epidemiological strategies to examine patterns of illness or injury in groups of people. Concepts of health, risk and disease causality are examined. Implications for development of data-based programs for disease/injury prevention and control as well as policy implications will be discussed. Prerequisite: 414. Summer and Fall. [3] Rogers and Moore.
NURS 430. Integrative Application of Evidence-Based Practice II. In this second course of a three-course series, the DNP student works with a faculty mentor to refine the design and begin implementing the scholarly project. Students must successfully complete an oral presentation of the project prior to implementation. To complete the objectives of this course successfully, the student is expected to practice a minimum of 125 hours in a practice area related to their topic of interest. Each student will be required to submit individual objectives at the beginning of the semester. Prerequisite: 410, 412, 414, 420, 422, 442; Pre/corequisite 432, 444. Spring and Summer. [1] McArthur.

NURS 432. Health Care Economics and Finance. This course covers basic economic theory, market drivers and restraints, health care finance and reimbursement, cost/benefit analysis and health care entrepreneurship. Theory and application are integrated throughout the course with a particular focus on the clinical role of the DNP within the contemporary health care environment. Students take either N432 or 434. Prerequisite: 410, 412, 414, 422; Pre/corequisite: 420. Summer and Fall. [3] Watters and Harris.

NURS 434. Advanced Health Care Economics and Finance. This course addresses advanced application of economic theory, financial principles and financial modeling in the health care market. Theory and application are integrated and aimed at preparing the student to assume an executive-level DNP role in large and complex health care organizations. Prerequisite: 410, 412, 414, 422; Pre/corequisite: 420. Summer and Fall. [3] Watters and Harris.

NURS 440. Integrative Application of Evidence-Based Practice III. In this final course of a three-course series, the DNP student evaluates the scholarly project specific to a population of interest within a practice setting. In order to successfully complete the objectives of this course, the student is expected to practice a minimum of 250 hours in a practice area related to their topic of interest. Prerequisite: 410, 412, 414, 420, 422, 424, 430, 432, 442, 444; Pre/corequisite: 452, 454. Summer and Fall. [2] Adams and McArthur.

NURS 442. Quality Improvement and Patient Safety. This course prepares students to design, implement and evaluate evidence-based quality health care practices for patient populations (individuals and aggregates) in acute, home and community settings. Working as partners in interdisciplinary teams, students will assess organizational culture, gather safety information, analyze data and translate findings into systems changes through action learning experiences within their own organizations. Prerequisite: 410, 412, 414; Pre/corequisite: 420. Spring and Summer. [3] Polancich

NURS 444. Management of Organizations and Systems. This course synthesizes leadership theory and organizational models within the context of the health care industry. Models of human resource management, change management, strategic planning, program development and implementation will be explored and applied. Based on these theories and models, the student will derive the DNP’s role in complex health care organizations. Prerequisite: 410, 412, 414, 420, 424, 442; Pre/corequisite: 430, 432. Spring and Summer. [3] Pilon.

NURS 445. Evidence-Based Management in Healthcare Organizations and Systems. This course is designed for DNP students with demonstrated competencies in organizational theory and behavior, leadership principles and practices, and organizational structure and culture through prior graduate education and career history. These experienced nurse managers will apply evidence-based management methodology to their work environments. The DNP role is explored as an important catalyst for transforming traditional organizational
decision making and policy development to an evidence-based approach. Prerequisite: 410, 412, 414, 420, 422, 424, 442; Pre/corequisite: 430, 432. Spring and Summer. [3] Pilon

NURS 452. Health Policy. This course addresses health policy from the perspectives of evidence development, analysis and economic impact within a socio-political context. There is a secondary focus on the role of regulation within the U.S. health care system. The DNP contribution to health policy development is explored. Prerequisite: 410, 412, 414, 420, 442; Pre/corequisite: 430, 440, 444. Spring and Fall. [3] Cull.

NURS 454. Legal and Ethical Environment. This course provides a comprehensive analysis of the legal, regulatory and ethical environments that impact DNP practice. Prerequisite: 410, 412, 414, 420, 422, 424, 430, 432, 442, 444; Pre/corequisite: 440, 452. Summer and Fall. [3] Thomson-Smith.

- Nurse Faculty Loan recipients are required to take N466 & N467-
and compassionate interactions with those facing advanced illness and death. Students will apply a wide range of ideas, beliefs, and understandings from multiple disciplines to end-of-life patient care scenarios. Learning activities will assist the students to critically recognize their own feelings, learning needs, and biases regarding end of life care so that they can effectively serve the needs of clients, families and staff in the palliative care trajectory. Pre/Corequisite: 305A/B, 307A, 308, 309A, 325C. Summer [2] Lindstrom and Gilmer.

Nurs381B: Networks & Internet Applications for Health Care Providers. This course explores the structure and function of networks and Internet applications as they relate to their use within health care. Topics covered included basic concepts of network architecture, standard protocols, information services available and issues of network security. Fall [2] Gordon.

Nursing 381G: Consumer Health Care Informatics. This course addresses the consumer's use of electronic information systems and applications to improve their medical outcomes and their health care decisions. How informatics solutions impact the health care partnership of provider and patient is explored. Various technology and applications that empower consumers are reviewed. Studies that evaluate the effectiveness of health care informatics in patient outcomes are included. Spring [2] Trangenstein.

Nursing 460A: Obesity and Weight Control Part 1: Biology, Physiology and Epidemiology. Nationwide and worldwide the obesity epidemic is growing and this has led to a significant number of adults and children with obesity-related comorbidities such as hypertension, dyslipidemia, type 2 diabetes and cardiovascular disease. Awareness of this trend necessitates greater understanding of the link between adiposity and metabolic disease. This course will review the biological and physiological control of food intake and energy balance. The course will evaluate the metabolic pathways in which food and macronutrient intakes are utilized to provide energy and mechanisms by which body weight and health are influenced. Public health issues associated with obesity, energy and macronutrient intakes will be discussed as well as the adequacy of intakes in meeting recommended requirements at various life stages. Critical evaluation of peer-reviewed literature will be used to study prevention and risk factors of overweight and obesity, consequences with regard to metabolic syndrome and other chronic disease states, and public health issues. This course builds on undergraduate/graduate preparation in anatomy, physiology and biochemistry. Pre/Corequisite: 410A, 422. Spring [2] Silver.

N460B: Obesity & Weight Control Part II: Management & Practice. Weight management and treatment of overweight, obesity, metabolic syndrome and other obesity related comorbidities requires multidisciplinary efforts. This course will build on the knowledge obtained in part 1 to provide the student with a comprehensive understanding of national and organizational guidelines as well as current evidence based standards of care. The course will review the role of various health care providers in screening and assessment of body weight and energy balance. Patient management issues specific to age groups across the life cycle will be discussed as well as differences in practice and management by health care setting. The course content will include use of the scientific evidence to evaluate current dietary, pharmaceutical and surgical treatment models, strategies to optimize outcomes as well as identification and management of adverse outcomes. Pre/Corequisite: 410A, 422. Summer [2] Silver.

N461: Exploration of Men’s Health: Evidence and Practice. This course explores health issues with regard to biological, sociocultural, political, ethical and environmental influences on men’s health. Emphasis will be placed on analyzing and developing evidence-based

**N462: Management of Psychiatric Issues for Non-Mental Health Clinical Providers.** Non-Mental Health Clinical providers are assessing, evaluating, diagnosing, and treating mental health problems despite limited training and supervision in these areas. This course will identify common mental health disorders seen in the primary and acute care settings including the epidemiology, etiology, risk factors and diagnostic signs/symptoms of these disorders. It will also provide clinical practice guidelines, screening tools and evidenced based treatment approaches to provide a foundation for the clinician to identify and manage common disorders within their scope of practice and setting. Students will also recognize when psychiatric consultation or specialty care is indicated. The course is designed for the non-mental health provider and builds on undergraduate/graduate preparation in anatomy, physiology, biochemistry within a cultural context. Summer [2] Love.

**Nursing 464: Independent Study (Contract between student and faculty sponsor (and advisor), variable credits [1-4]).** Individualized study with content related to the student’s practice and scholarly project. A contract is made between the student and faculty adviser, with copies for the student, faculty adviser, program director, and student’s academic record. The student is responsible to identify study objectives, identify DNP competencies that are addressed within the course, specify the primary DNP competency related to this study and negotiate learning activities and evaluation method. Fall, Spring, Summer. Prerequisite: Consent of faculty adviser. [Variable credit 1-3] Staff.

The independent study agreement is available at: https://www.nursing.vanderbilt.edu/current/forms.html

_Students must print the form, fill it out, collect appropriate signatures, and return to VUSN Registrar, Logan Key._

**Nursing 466: Curriculum Strategies for Health Professional Education.** (Required course for students who have received a Nurse Faculty Loan) This course introduces the student to the foundations of learning theory and learning styles. The impact of technology on learning practices and the appropriate use of technology to facilitate learning are emphasized. Students will create electronic elements for effective learning and use a course management system. Copyright and fair use issues are discussed. Overall curriculum strategies that integrate content, organization, informatics and sequencing of courses are discussed. Students will design a learning program that integrates learning styles, technology use and a course management system. Prerequisite: Admission to the DNP program or consent of faculty. Fall and Spring [3] Krau.

**N467: Educational Evaluation for Learning in the Health Profession.** (Required course for students who have received a Nurse Faculty Loan) This course explores issues related to evaluating educational offerings that employ technology. The advantages and disadvantages of both traditional and more novel approaches to evaluation are discussed. Students will learn how to create online surveys along with principles of test and survey management. Issues surrounding online testing including access, privacy, and data input accuracy and are emphasized. Overall program benchmarks are explored. Fall and Summer [3] Krau.
**Additional Options and Important Notes**

In addition to the above selections, post-masters and DNP students have the option to enroll in Vanderbilt University School of Nursing Specialty (MSN) nursing courses or an independent study to fulfill the elective requirements. The elective course must provide content applicable to the student’s current or potential practice or the scholarly project.

**Procedure:**
1) Prerequisite: Approval of student’s advisor and the course coordinator
2) The student must submit a written request for the elective approval to the student’s advisor.

*300-level elective courses begin the week prior to the DNP Intensive each semester. Make sure that you are in contact with course instructors for direction on how to participate in course orientations on-line.

*Some Global Health electives are not offered in distance learning format, but are open to any (local) DNP students able to attend classes on campus.

*Education electives (required for Nurse Faculty Loan recipients) are 3 semester credit hours each, but tuition is charged for only 2 semester credit hours for each course. Non Nurse Faculty Loan recipients will be charged for the full 3 semester credit hours per course.

DNP Scholarly Project Process

Overview

A hallmark of the practice doctorate is the successful completion of a scholarly project demonstrating the synthesis of the student’s experiences. The scholarly project embraces the synthesis of both coursework and practice application. The final outcome is a deliverable product reviewed, evaluated and approved by a faculty mentor/advisor and scholarly project committee. Dissemination modes include the final scholarly paper and a scholarly presentation; preparation of a manuscript for submission for consideration for publication in a peer-reviewed journal is suggested. The nature of the scholarly projects will vary. Projects are related to advanced practice in each student’s nursing specialty, and the project must demonstrate potential benefit for a group, population, or community rather than an individual patient. Projects most often evolve from practice and may be done in partnership with another entity, such as a clinical agency, health department, government agency, or community group. Examples of overall types of scholarly projects include quality improvement initiatives; implementation and evaluation of evidence-based practice guidelines; policy analysis; design and use of databases to retrieve information for decision-making, planning, evaluation; design and evaluation of new models of care; design and evaluation of healthcare programs.

DNP students identify an inquiry within their practice area at the time of their applications or admission to the DNP program. During the first semester, students work with faculty to begin exploring concepts related to their inquiries while evaluating sources of evidence related to the problem/need. The inquiry will be further defined during the three integrative application courses with the guidance of the advisor/committee chair and committee members. A design appropriate to the purpose of the inquiry will be developed based on the evaluation of the evidence, needs assessment, and overall project goals. During the final two semesters of the program, the project will be implemented integrating economic, political, ethical, and legal factors as appropriate. Evaluation of the outcomes of implementation and dissemination of findings complete the scholarly project process.

Students work closely with their scholarly project committee, under the direction of the Committee Chair, who most likely is the student’s advisor. The Committee Chair is engaged in all aspects of the process.

Scholarly Project Committee

After identifying the project topic, a Scholarly Project Committee is appointed with the guidance of the advisor and the DNP Program Director as necessary. Each committee must have at least two members inclusive of the Chair, both of whom must be faculty of Vanderbilt University and hold doctoral degrees in their areas of expertise. Students may select one or more additional members from outside the University. Each student will identify a faculty member from the School of Nursing to serve as Chair.

The Committee Chair will assume the role of academic advisor if different from the previously assigned advisor for the remainder of the student’s tenure. The Chair is selected to match the scholarly interest and/or method of inquiry identified by the student. Students will identify their Committee Chair and members by the beginning of N420. The Chair will help the student identify potential committee members within the School of Nursing.

Once the committee members are identified, the student must complete the Scholarly Project Committee Appointment Request form (see appendix), and obtain appropriate signatures. The original form is forwarded to the DNP Program Director who will obtain the signature of the VUSN Senior Associate Dean for Academics. If the Chair or other Committee member is unable to continue working with the student, the student will coordinate with the DNP Program
Director and the Senior Associate Dean for Academics regarding an action plan. Changes in the Committee must be submitted in writing to the DNP Program Director and a new form completed.

The Scholarly Project Committee is responsible for the following activities:

- Guiding the student in the development of the scholarly project
- Critiquing the readiness of the project proposal for presentation
- Mentoring the student during the implementation and evaluation phases of the project
- Evaluating the student’s performance on both the Proposal and final Project presentations.

Committee Meetings

The progression of the DNP student throughout the project process is monitored by the committee during scheduled meetings at least once each semester, during the on-campus intensives, via Scopia conferencing, Skype, or other distance formats as agreed upon by the Chair and the student. The student is responsible for scheduling these meetings and advised to document the agenda, actions, and target dates. Students and Committee Chairs may opt to develop a written contract reflecting agreed upon expectations and timelines. The contract should take into consideration individual student objectives for the Integrative Application courses.

Integrative Application Courses

Students complete three integrative application courses, which offer mentored opportunities to identify, develop, implement, evaluate, and disseminate the independent, analytical scholarly project. Each course assumes the synthesis of knowledge gleaned from subsequent/concurrent DNP courses and the unique practice expertise of the DNP student. Although these courses are separate entities, course objectives and student’s individual objectives may transition into a subsequent integrative course reflecting the student’s progress with the project in collaboration with the Committee Chair and course faculty. Throughout these three courses, students are expected to practice a minimum of 500 hours in an area related to their practice inquiry.

N420 Integrative Application of Evidence-Based Practice I

- Documentation of meeting DNP competencies and practice hours in electronicDNP student portfolio
- Identification and refining of topic of interest
- Submission of Scholarly Project Committee Appointment Request form (see Appendix)
- Develop scholarly project proposal paper

The following project elements may be accomplished in N420:

- Complete scholarly project proposal paper
- Successfully present scholarly project proposal
- Submit Approval of DNP Scholarly Project Proposal form (see Appendix) signed by Committee Chair and members to the DNP Program Director who will obtain the signature from the Senior Associate Dean for Academics
- Submission of Institutional Review Board (IRB) documents
Chapter 1: Introduction to Evidence-Based Practice

1.1 Introduction

Evidence-based practice (EBP) is a method of clinical decision making that integrates the best available evidence from research studies with the expertise of healthcare providers and the preferences of patients to make optimal decisions for individual care. This approach is based on the idea that evidence-based practice can improve patient outcomes, reduce costs, and enhance the quality of care. EBP involves systematically searching for, critically appraising, and synthesizing evidence from research studies to inform clinical decisions.

1.2 Elements of EBP

EBP involves several key elements, including:

1. Identifying a clinical question: This involves defining a specific question or problem that needs to be addressed.

2. Searching for evidence: This involves using databases and other resources to locate relevant research studies.

3. Critical appraisal of evidence: This involves assessing the quality and relevance of the evidence found.

4. Formulating an intervention: This involves translating the evidence into practice recommendations.

5. Implementation of practice changes: This involves putting the recommendations into practice.

6. Evaluation of outcomes: This involves assessing the impact of the practice changes on patient outcomes.

1.3 Benefits of EBP

EBP offers several benefits, including:

1. Improved patient outcomes: EBP can lead to better patient outcomes because it is based on the best available evidence.

2. Increased patient satisfaction: Patients may feel more confident and satisfied when their care is based on evidence.

3. Reduced costs: EBP can help reduce costs by avoiding unnecessary treatments and procedures.

4. Enhanced professional development: EBP can help healthcare providers develop their skills and knowledge in critical thinking, research, and evidence-based decision making.

Chapter 2: Tools and Techniques for EBP

2.1 Research Methods

There are several research methods that can be used in EBP, including:

1. Descriptive studies: These studies describe a phenomenon or a group of patients.

2. Analytic studies: These studies examine the relationship between variables.

3. Experimental studies: These studies randomly assign patients to different groups to compare outcomes.

2.2 Critical Appraisal Tools

Critical appraisal tools are used to evaluate the quality of research studies. Examples of critical appraisal tools include the Cochrane Collaboration’s tool and the PEDro (Physiotherapy Evidence Database) score.

2.3 Systematic Reviews and Meta-Analyses

Systematic reviews and meta-analyses are methods of synthesizing evidence from multiple studies. These methods involve searching for relevant studies, critically appraising the evidence, and combining the results to provide a more comprehensive overview of the available evidence.

Chapter 3: Applying EBP in Practice

3.1 Implementation Strategies

There are several strategies that can be used to implement EBP in practice, including:

1. Change management: This involves managing the process of changing clinical practices.

2. Education and training: This involves educating healthcare providers about EBP and helping them develop the skills needed to use EBP effectively.

3. Organizational support: This involves creating an environment that supports the implementation of EBP.

3.2 Challenges and Barriers

Implementing EBP can be challenging, and there are several barriers that can prevent its successful implementation, including:

1. Resistance to change: Healthcare providers may resist implementing EBP because it requires them to change their established practices.

2. Lack of resources: EBP can be resource-intensive, and healthcare organizations may lack the resources needed to support its implementation.

3.有限的时间: Healthcare providers may have limited time to engage in EBP activities.

Chapter 4: Conclusion

EBP is a critical component of modern healthcare and has the potential to improve patient outcomes and reduce costs. By integrating the best available evidence with clinical expertise and patient preferences, EBP can provide a framework for making informed decisions that benefit all stakeholders. As healthcare continues to evolve, EBP will remain an essential tool for improving the quality of care.
after the Chair and Committee have formally approved the student’s project proposal and the Chair has reviewed and approved the application. A copy of the letter of approval must be submitted to the Chair before implementation of the project. Additional IRB approvals and CITI training may be required from the agency or institution in which the project will be implemented. The student needs to ascertain this requirement prior to submission to the Vanderbilt IRB.

Project Proposal

Students collaborate with their Chair on the development of the written proposal. Contracting with Committee members regarding expectations throughout the process is encouraged. Students should expect to complete multiple revisions of the written proposal before achieving final approval from the Committee Chair and members. Students are encouraged to develop a timeline for completion of the proposal. Once the proposal is finalized and approved by the Committee Chair and the committee members, the student delivers a 20-30 minute oral presentation using Power Point® to the committee during which the key components of the project proposal are described. The presentation may be at the School of Nursing or via synchronous web-conferencing, such as Scopia. The student is responsible for scheduling this presentation after coordinating with the Chair and other committee members.

The DNP student must pass the proposal presentation to meet course requirements and progress in the Integrative Application courses. A written evaluation with recommendations, as appropriate, will be documented on the Approval of DNP Scholarly Project Proposal Evaluation form and signed by the student and all committee members. A copy of the form must be submitted to the DNP Program Director who will forward the form to the VUSN Senior Associate Dean for Academics.

If a student fails to pass the presentation, a plan for remediation and second proposal presentation will be developed by the committee, the DNP Program Director, and the student. This plan will be submitted to the Senior Associate Dean for Academics for approval within one week of the date of the meeting. Failure to successfully pass the second proposal presentation will result in failure of the course.

Suggested Timeline for Written and Oral Scholarly Project Proposal

- Submit a first draft of the written proposal to the committee Chair at least six weeks before the projected proposal presentation.
- Submit a revised draft of the paper to committee members following Committee Chair’s approval at least three weeks before projected proposal presentation. The final copy of the proposal paper and slide presentation should be submitted to the Committee Chair and all members at least one week before projected proposal presentation.
Format for Written Project Proposal

The proposal should be written in APA format (6th edition) using size 12 font. The length of the proposal will vary, but usually is 20-30 pages excluding reference pages. The title page must include the name of the scholarly project, the student’s name and academic credentials, and Vanderbilt University School of Nursing. An electronic copy of the final proposal must be submitted to the committee at least 7 days before the scheduled presentation. The organization and content of the proposal will vary according to the project and recommendations of the Chair and Committee members. The following components of the proposal are recommended:

I.  
- Introduction to problem
- Statement of the problem
- Purpose/specific aim(s) and/or objectives
- Background of problem of interest
- Significance of problem related to healthcare, nursing, and advanced practice nursing
- Discussion of how identified practice setting will support project’s development
- Benefit of project to practice

II.  
- Synthesis of body of evidence related to problem (appraisal of literature, other sources of data...) including overall strengths, weaknesses, gaps, and limitations.
- Concepts and definitions used in project
- Application of a theoretical or conceptual framework for project

III.  
Methodology
- Needs assessment
- Project design
- Data collection tools, including a discussion of their validity and reliability
- Plan for data analysis
- Resources needed
- Project budget and justification
- Project timeline

Final Project Paper and Presentation

The DNP student must successfully complete the final scholarly project paper and oral presentation to be eligible for graduation. The oral presentation, using Power Point, may take place at the School of Nursing or via synchronous web-conferencing. All committee members are expected to be in attendance. Practice mentors and key stakeholders are encouraged to attend.

All presentations must be scheduled ahead of time in coordination with the Chair, Committee members and the DNP Program Director. The DNP Program Department Education Coordinator will coordinate the process, such as scheduling the room and arranging for audiovisual needs.

The presentation will be facilitated by the Committee Chair. The DNP student will make a presentation of his/her project lasting approximately 30 minutes, after which the Chair will open the floor for questions/discussion from the Committee and audience. Following questions and discussion, the audience will be excused and the Committee may pose additional questions about the project to the student. The DNP student is then excused while Committee members deliberate on the outcome of the presentation. A written evaluation with recommendations, as appropriate, will be documented on the Approval of DNP Scholarly Project Evaluation form and
signed by the student and all committee members. (see Appendix). A copy must be submitted to the DNP Program Director who will forward the to the Senior Associate Dean for Academics.

If a student fails to pass the final presentation, a plan for remediation will be developed by the Committee, the DNP Program Director and the student. This plan will be submitted to the Senior Associate Dean for Academic Affairs, School of Nursing, for approval within one week of the date of the project presentation. Failure to pass the second presentation will result in dismissal from the DNP program. The project must be successfully presented at least two weeks prior to semester end for the student to be eligible for graduation.

Once the Committee has agreed that the student has met all the requirements for graduation, the student will submit an electronic version of the final written paper to the DNP Program Department Education Coordinator.

**Suggested Timeline for Scholarly Project Presentation & Paper**

- After collaboration between student, Committee Chair and committee members, date and time requests for the final presentation submitted to DNP Program Department Education Coordinator no later than 4 weeks after the first day of the final semester. All committee members must agree and be available on the presentation date.
- First draft of the paper to the Committee Chair at least six weeks before the projected presentation. Multiple revisions of the paper may be necessary.
- Submit a revised draft of the paper to Project Committee Members following Committee Chair’s approval at least 2 weeks before projected final presentation.
- The final copy of the paper and slide presentation should be submitted to the Committee Chair and all members 1 week before the projected final presentation.
- A mock presentation with the Committee Chair prior to the final presentation is optional.

The final presentation date must be coordinated with the DNP Program Department Education Coordinator following confirmation with Committee members. Additional information will be provided in N440.

**Format for Written Scholarly Project Paper**

The final paper should be written in APA format and in accordance with the format described under the guidelines for the written proposal. As noted in the proposal discussion, the organization and content of the final paper will vary according to the project and recommendations of the Chair and Committee members. The following components of the project paper are recommended:

I.
- Introduction to problem
- Statement of the problem
- Purpose/specific aim(s) and/or objectives
- Background of problem of interest
- Significance of problem related to healthcare, nursing, and advanced practice nursing
- Discussion of how identified practice setting supported project
- Benefit of project to practice

II
- Synthesis of body of evidence related to problem (appraisal of literature, other sources of data...) including overall strengths, weaknesses, gaps, and limitations.
• Concepts and definitions used in project
• Application of theoretical or conceptual framework for project

III. Methodology
• Methods for achieving purpose, such as needs assessment, project design
• Resources used

IV. Project results

V. Discussion of project results
• Relate project results to theoretical or conceptual framework, that is, did the project results support or not support the framework. Why or why not?
• Discuss significance of results to healthcare, nursing, and advanced practice nursing
• Overall strengths and limitations of project
• Recommendations for practice

Appendices
IRB approval
Letters of support
Data collection instruments
DNP Scholarly Project Proposal and Final Project Checklist

This checklist is for the student and Chair’s use to ensure all elements of the project proposal and final project are completed.

SENIOR ASSOCIATE DEAN FOR ACADEMICS

The Senior Associate Dean for Academics, Linda Norman, is located in Room 215 Godchaux Hall. Her Administrative Associate, Stacy Black, is located in Room 214. The Senior Associate Dean is available to assist students who have special curriculum needs or those who are experiencing academic difficulty. Prior to scheduling an appointment with the Associate Dean, students are encouraged to attempt to resolve the issue through consultation with their assigned faculty advisers. Appointments with the Associate Dean can be scheduled by calling her Administrative Assistant at (615) 343-3241. Responsibilities of the Associate Dean for Academic Affairs include:

- Notification to students of academic actions – probation, dismissals
- Approval of Leaves of Absence
- Planning of course schedules each semester
- Responsibility for catalog submission
- Serving as a resource to students and faculty in academic matters

ASSISTANT DEAN FOR STUDENT AFFAIRS

The Assistant Dean For Student Affairs, Sarah Ramsey, is located in Room 217 Godchaux Hall. Her administrative assistant, Terry Walker, is located in Room 216. Mrs. Ramsey serves as a resource to students concerning non-academic matters. She is available to assist students with a variety of activities and issues related to their student experience. Mrs. Ramsey serves as a resource to refer students to appropriate services available on the Vanderbilt Campus. The office of Student Affairs sponsors workshops related to student life (i.e. stress reduction, résumé preparation, interviewing skills). The Assistant Dean for Student Affairs also serves as the adviser to the Graduate Nursing Council and all other student organizations. Mrs. Ramsey is available daily from 9 AM until 5:00 PM. If you wish to schedule an appointment, please contact her at (615) 343-3334 or see her assistant. You can leave a message on voicemail 24-hours a day. Responsibilities of the Assistant Dean for Student Affairs include:

- Counseling students concerning non-academic matters.
- Referring students to appropriate campus resources (Counseling Center, Chaplain, Student Health, Equal Opportunity, Affirmative Action, and Disability Services Department Counseling Center, Faculty Adviser, Course Faculty, Academic Dean)
- Serving as Adviser to School of Nursing Student Organizations
- Coordinating programs and special events for students
FACULTY ADVISERS

Advising is an integral part of the student experience at Vanderbilt. Far from being a passive exercise, advising is a collaborative process in which students are expected to assume primary responsibility for their academic planning while advisers provide expertise and support with the planning effort.

Each student will be assigned a faculty adviser who will assist with planning a program of studies and will serve as a resource to students for academic matters, such as advice concerning any difficulty with courses, testing, or paper writing. The adviser should be contacted when the student is experiencing problems in maintaining an acceptable GPA. The Senior Associate Dean for Academics serves as adviser to special students. Their advisers’ roles include:

- Planning program of study with assigned students
- Assuring that students meet graduation requirements
- Serving as a resource to students for problem-solving related to academic progress such as difficulties with testing, paper writing, or clinical decision-making
- Initiating meeting to discuss student’s plan for success if student receives a mid-term deficiency or is placed on probation
- Making recommendation to Associate Dean if student needs leave of absence or wishes to withdraw
- Referring students to campus resources, such as:
  - Academic Enhancement Coordinator
  - Writing Support Services
  - Equal Opportunity, Affirmative Action, and Disability Services Department
  - Counseling Center
  - Student Health Services
  - Senior Associate Dean for Academics

ASSISTANT DEAN FOR RECRUITMENT AND ENROLLMENT MANAGEMENT (DIRECTOR OF ADMISSIONS/REGISTRAR)

The Assistant Dean for Recruitment and Enrollment Management, Paddy Peerman, is located in Room 210 Godchaux Hall. The administrative assistant for the registrar’s office, Pat Seitz, is located in Room 216. The administrative assistant for the admissions office, Bernie Rimgale, is located in Room 207. Ms. Peerman serves as a resource to students concerning their course schedules and academic records. She also serves as Director of Admissions and as liaison between the School of Nursing and the University Registrar’s Office. You may contact her at (615) 322-3802 or see one of her assistants.

Responsibilities of Enrollment Management include:

- Responsible for maintaining student academic records (Grades, Leaves of Absence, Withdrawals)
- Notifying students regarding registration procedures and deadlines
- Verifying student enrollment and graduation
- Notarizing documents for NCLEX, national certification exams, etc.
- Notifying course faculty and advisers of change in student status
- Entering course schedule into student record system

Responsibilities of Recruitment include:

- Identifying prospective students
- Overseeing the recruitment process from initial inquiry to enrollment
- Coordinating change in specialty, leave of absence, and withdrawal processes for enrolled students
OFFICE OF ACADEMIC ENHANCEMENT

Drs. Carolyn Bess and Jana Lauderdale serve as additional faculty resources to students who need supplemental academic support. Dr. Bess and Dr. Lauderdale are available to provide assistance with study, test-taking, and basic writing skills. Students who experience academic difficulty should contact the course faculty and Dr. Bess or Dr. Lauderdale as soon as possible to initiate a plan for improvement.

You may contact Dr. Bess at her office, 307 Godchaux Hall, or by phone at (615) 343-3279, or by e-mail at Carolyn.bess@vanderbilt.edu. You may contact Dr. Lauderdale at her office, 218 Godchaux Hall, or by phone at (615)343-2228, or by email at jana.lauderdale@vanderbilt.edu.

WRITING SUPPORT SERVICES

Drs. Mary Jo Gilmer and Julia Phillipi serve as additional faculty resources for students who need supplemental assistance in scholarly writing. Students should contact the course faculty and either Dr. Gilmer or Phillipi for assistance.

VANDERBILT UNIVERSITY SCHOOL OF NURSING: COMPUTING SERVICES

SENIOR ASSOCIATE DEAN FOR INFORMATICS

The Senior Associate Dean for Informatics, Betsy Weiner, is located in Room 260 Frist Hall. She is responsible for technology integration throughout the academic, practice, and research settings. The staff from the Frist Nursing Informatics Center (described below) will work with students on a daily basis to address their technology needs. Should you have any technology issues that need to be resolved, feel free to call Dr. Weiner at (615) 936-2581 (or email Betsy.Weiner@vanderbilt.edu).

Due to holidays, and occasional classes scheduled to meet in the lab, exceptions to the regular schedule may occur. Notice of such changes will be posted in the lab and published on the VUSN Web at

Staff:

Jerry Murley - Director of Instructional Technology (343-3300)
Mazo Freeman - Program Coordinator (343-3950, cell 480-6770)
Clay Sturgeon - Media Services Manager (343-3332, cell 491-2887)
Greg Tipton - Media Services Specialist (343-0158, cell 491-2843)
John Norfleet - Computer Programmer (343-3400, cell 600-9983)
Olivia Dorris - Inventory Control Specialist (875-5634, cell 775-6946)
Keith Wood - Graphics Manager (895-2748)
Dina Bahan - Sr. Graphics Designer (343-2965)
Diana Vasquez - Web Coordinator (936-7668)
Ryan McNew - Sr. Network Manager (343-3046, cell 613-3143)
Scot Loerch - Network Manager (343-5623, cell 491-2547)
John DeVinney - Network Technician (343-2724, cell 491-2143)

The Frist Nursing Informatics Center (FNIC) student computer lab is equipped with 27 Dell Precision T1500 computers, three laser printers, and two scanners. Use of FNIC labs is restricted to VUSN students, staff, and faculty. Word processing has lowest priority in all VUSN computer labs; online testing has highest priority. Laser printing of school-related assignments is supported free of charge for the first 500 prints per semester; thereafter prints may be purchased on a Commodore card for five (5) cents a copy. Multiple copies of documents can be made on a photocopy machine (see below). (As a courtesy to fellow students, when the computer labs are busy, please limit printing to no more prints than are immediately necessary. Graphics-intensive files can cause long delays at the shared printers.)

Each Dell computer in the lab has an Intel i5-750 2.66GHz processor, 2 GB RAM, a 250 GB hard drive, a 17” HP flat panel monitor, a 48X CD-RW/DVD, USB access for a personal thumb drive, and Windows 7. Each also has Microsoft Office 2010 Professional (Access, Excel, Word and PowerPoint) installed. All lab PCs are on the VUSN network and are connected to one of three Hewlett-Packard LaserJet P3015 printers. They are capable of accessing resources in the Medical Center library and on the VUSN network. All computers on the network have direct access to VUnet services (Vanderbilt University’s central computing services) and full Internet connectivity.

The room 240 Frist Hall lab has an HP ScanJet 8200 color scanner. The room 240CA Frist Hall lab contains an HP ScanJet 5590 color scanner with a multi-page feeder and text-scanning software. Assistance from FNIC personnel regarding the use of lab hardware and software is available. Workshops on the use of specific instructional software may become available from time to time. Watch for notices in the labs and in email messages from the FNIC.

COMPUTING-RELATED INFORMATION

VUnetID

Your VUnetID identifies you as a member of the Vanderbilt community, allowing you to access services on the Vanderbilt University computer network (VUnet). The following essential services require a VUnetID and associated password:

1. Vmail, the university’s email system
2. OAK (Blackboard), Web-based course management system that allows instructors to post course-related information for students online in a secure environment
3. YES (Your Enrollment Services), single login for student services
4. Access 2 Academic Information, allows students to access personal academic record information online.
5. ResNet, VU network and Internet access for on-campus residents
All enrolled students are eligible for a VUnetID and e-password. You can get these through a self-service process by going to [http://www.vanderbilt.edu/epassword/](http://www.vanderbilt.edu/epassword/). (FNIC lab computers at VUSN have a shortcut icon for this Web page in the desktop Applications folder.) Click on “Activate VUnetID” and follow the onscreen instructions. To obtain your VUnetID, you must enter your name as it appears in your Vanderbilt records (i.e., on your class schedule), omitting any suffix such as "Jr.", your Social Security (or equivalent) number, and your date of birth.

You will have the same VUnetID for as long as you remain a student at Vanderbilt. If you make a printed copy of your authorized VUnetID and include your password on the same sheet of paper, be sure to store this document in a safe location.

**VUSN Technology Overview Page**

The [Technology Overview](http://www.nursing.vanderbilt.edu/tools/techinfo.html) Web page has links to a number of important resources for students. From there you will be able to access the Tech Tools page, where you will find information about configuring your computer and setting up necessary accounts.

**Accessing OAK (Blackboard)**

OAK (Online Access to Knowledge) is a Web-based course management system used at Vanderbilt University that is powered by the Blackboard Learning System. It allows students to access course-related materials, such as course syllabi, assignments, handouts, and slide presentations, via the Internet. OAK can be accessed from [http://oak.vanderbilt.edu/](http://oak.vanderbilt.edu/) or via Quick Links to OAK (Blackboard) on all VUSN Web pages. Use your VUnetID to access this system.

**Vmail Access and Help**

Vmail Outlook Web Access ([https://email.vanderbilt.edu/](https://email.vanderbilt.edu/)) is the email system the School of Nursing uses. Use your VUnetID for access. For questions about Vmail call the VUMC Help Desk at 343-4357 (343-HELP). You may also contact Jerry Murley (343-3300), Ryan McNew (343-3046), Scot Loerch (343-5623), John DeVinney (343-2724) or John Norfleet (343-3400) at VUSN.

**WIRELESS INTERNET ACCESS AT VUSN**

Those who have laptops with wireless cards may access the Internet anywhere within the VUSN complex. Students who use the VU/VUMC wireless systems will be responsible for installing critical patches on their laptop computers.

Please remember that these are university resources for university-related activities. Please refrain from using wireless resources for downloading large files, because such activity will limit availability to others, or for transfer of patient information, for security reasons.

**AUDIOVISUAL VIEWING & ADDITIONAL INTERACTIVE LEARNING TOOLS**

VCR/CD/DVD players are located in the FNIC computer lab. Please ask for and use headphones when viewing videos if others are in the room or in adjacent rooms. From the lab, students enrolled in VUSN courses that are videotaped may watch class lectures on CD or streamed on the Web; however, the course coordinator determines access policies for these resources.
MEDIA RESOURCE LIBRARY

FNIC instructional resources, including video and audio tapes, CDs, DVDs, and some printed materials, are maintained in the resource library in Room 240B Frist Hall. A catalog of instructional software can be accessed via VUSN’s Current Students Web page.

For the benefit of all, limited resources may not be removed from VUSN facilities (i.e., Frist Hall, Godchaux Hall, and the Annex). Some videos may be taken to players in the computer labs or other viewing areas for specific time periods upon deposit of the borrowing student’s student ID or signature. Unless otherwise noted, programs on CD/DVD may be used only on lab computers. Policies governing the use of software resources left temporarily in the care of the FNIC may vary due to express faculty guidelines. Students may not install software on lab computers.

COPY/COURSE REFERENCE MATERIALS ROOM

There is a copy machine with an automatic document feeder for student use in Room 240C Frist Hall. It accepts coins only ([$1 bills can be changed in the snack vending machine in the student lounge). Copies cost ten cents each (subject to change as VUSN evaluates student usage). The room also contains printed course reference materials, staplers, a paper cutter, a 3-hole punch, and a work table. There are other copiers available for student use at Eskind Biomedical Library, where VUSN maintains a second set of printed course reference materials. Paper copies cost ten cents each; the copiers require a Commodore card. In addition, Eskind has scanners available for student use; there is no charge for using the scanners to copy course reference material.

FNIC TESTING LAB

The FNIC testing lab is located in Room 240A Frist Hall. It contains eight computers that are dedicated to Web-based testing. This lab is closely supervised and should remain quiet at all times. The Vanderbilt University honor code is strictly observed in the FNIC computer lab.
RESOURCES FOR DISTANCE ACCESS STUDENTS

Students in the DNP program require that students attend the face to face intensive sessions each semester, with the remainder of the course delivered using distributed learning methods such as discussion boards, chat sessions, conference calls, or two way interactive video sessions. These methods allow for continued faculty contact between sessions. In addition, practice placement can be arranged in the student's "home" area provided a suitable agency that will allow the student to meet the goals of the practice requirements and DNP project.

Distance access students use the same type of student accounts as mentioned previously. The primary difference is that instead of attending a class session in a traditional classroom environment, students access course materials via the internet. We recommend an Internet service provider with high-speed Internet access, such as the services offered by cable companies (Comcast, Charter, Time-Warner, etc.), DSL service provided by your phone company, or the new uVerse service offered by AT&T. Satellite (HughesNet) or 3G cell systems (VerizonWireless, Sprint/Nextel, ATT, Cricket, etc.) connectivity is typically not sufficient. 4G connectivity MAY be sufficient if you are reasonably close to the tower (at least 3 bars) and the tower isn’t overwhelmed with traffic.

Expectations for Student Home Computer and Other Resources:

- A multimedia-capable computer with a 2 GHz Intel® Pentium® 4 dual core processor or better
  - 2GB RAM or better, 250 GB hard drive or better, CDRW/DVDRW drive
  - A full duplex sound card and speakers
  - 65,000-color video display card set to display at least 1024x768 or higher
  - An Ethernet card (built-in, Cisco-compliant wireless capability is also recommended)
  - Windows XP with Service Pack 3 or later or Macintosh OS X 10.6 or better**
  - Microsoft Office 2010 (Windows), or 2011 (Mac)
- Cable or DSL Internet service (3G cellular cards, and satellite connections are not recommended)
- Shareware/free software:
  - Microsoft Internet Explorer 8.x or better or Firefox 9.0 or better
  - Adobe Acrobat Reader X or better (http://www.adobe.com/prodindex/acrobat/readstep.html)
  - Microsoft Security Essentials (http://its.vanderbilt.edu/antivirus/downloads.php)
  - Adobe Flash Player (http://www.adobe.com)
  - QuickTime Player (http://www.apple.com/quicktime/download/)
  - Scopia and/or Microsoft Communicator/Lync (http://its.vanderbilt.edu/uc/lync)
- Other resources:
  - See our Program Technology Requirements Web page (http://www.nursing.vanderbilt.edu/tools/techtable.html) for more information.
  - Personal USB drive (thumb drive) for moving files from computer to computer
  - A printer

* A fast Internet connection through a cable or telephone company (broadband) is strongly recommended for all students and required for distance students. The Informatics specialty requires broadband.

** Macintoshes must have at least OS X 10.6+, 2GB RAM, Intel processor, fast Internet connection, Firefox 9.x+ Web browser. (Macintosh owners who use Windows with Bootcamp should install appropriate Windows virus protection and Windows OS updates on a frequent schedule for adequate security.)

All holdings of the library are pooled in an electronic catalog that can be accessed through the University’s Acorn Plus network. There are two bibliographic databases associated with Acorn Plus. Medline concentrates on medical and scientific topics while Wilson is a more general bibliographic source. Searches can be completed on all terminals located in the libraries, and the nationwide cooperative network allows material to be acquired from other libraries.

Commodore Cards can be used in university copy machines at each library (with the exception of the Eskind Biomedical Library). The Central Library and the Peabody/Education library will accept checks as well as cash. All other libraries require cash only.

In order to make copies at the Eskind Library, you must use coins and/or $1.00 or $5.00 bills. The Eskind library offers its own Med Center copy card that can be purchased there for $.50 and used similarly to the Venda Card, but only at the Eskind Library. Students may request articles not held in the Vanderbilt Library collection through the inter-library loan system. All requests should be made at the Eskind Library. Any requests made through other Vanderbilt libraries will be billed to the student.
OFFICE OF RELIGIOUS LIFE

The Office of Religious Life includes professional administrators and clergy representing numerous faith traditions who are available for pastoral counseling, crisis intervention and religious, theological, and spiritual discernment. The Director of Religious Life advocates for student religious organizations and sponsors interfaith programming in addition to the annual Holocaust Lecture Series, Project Dialogue and the Martin Luther King Jr. Day of Commemoration. Religious Life can assist students with finding an on-campus religious community as well as provide information regarding off-campus religious or spiritual resources. Visit www.vanderbilt.edu/religiouslife, or call: (615) 322-2457.

EQUAL OPPORTUNITY, AFFIRMATIVE ACTION AND DISABILITIES SERVICES DEPARTMENT (EAD)

The Equal Opportunity, Affirmative Action, and Disabilities Services Department (EAD), established in 1977, is Vanderbilt University’s equal opportunity, affirmative action, and disability services office. It is located at the Baker Building, 110 21st Avenue South. The EAD was established to fulfill these functions within the University:

1. Serve as a source of information for Vanderbilt’s faculty, staff, and students who have questions or complaints pertaining to equal opportunity in employment practices or in University sponsored programs, activities, and/or educational opportunities.

2. Coordinate accommodations for faculty, staff and students with disabilities, as well as monitor accessibility of University programs, activities, and buildings for the University and Medical Center community and campus visitors.

3. Coordinate and monitor the University’s compliance with equal opportunity laws and affirmative action guidelines.

For more information on equal opportunity or disability issues, please call (615) 322-4705 or go to http://www.vanderbilt.edu/ead/

STUDENT HEALTH CENTER

The Vanderbilt Student Health Service (SHC) is a student-oriented facility that provides medical care for chronic and acute conditions. The Student Health Center is located in the Zerfoss Building behind Medical Center North, adjacent to the round wing. The entrance faces McTyeire International House. Additional information can be found at www.vanderbilt.edu/student_health.

The following general health services are provided without charge or with nominal fees:

- Visits to staff physicians and nurse practitioners
- Routine primary care
- Educational information and speakers for campus groups
- Routine laboratory tests performed at the SHS
- Specialty clinics (Sports Medicine, Nutrition, and Colposcopy)

Students are billed by Vanderbilt Medical Center for any services provided by the Medical Center,
such as certain labs, x-rays, and specialty visits; most services, however, are covered by the student insurance policy or other private insurance plans. Please refer to www.vanderbilt.edu/student_health/student-health-insurance for health insurance eligibility and requirements.

The Zerfoss Student Health Center is open from 8:00 am to 4:30 pm, Monday through Friday and 8:30 am until noon on Saturday during the fall and spring semesters, except during scheduled breaks. Students should call ahead to schedule an appointment (615) 322-2427. Students with urgent problems will be seen on a same-day basis. Students will be given an appointment that day or worked in if no appointments are available. When the Health Center is closed, students needing acute medical care may go to the emergency department of Vanderbilt University Medical Center. Students will be charged for emergency department services by the Vanderbilt Medical Center, but a part of this cost may be covered under the student insurance plan or the student’s private insurance plan. A Vanderbilt ID, an up to date insurance card must be presented at the time of the emergency room visit.

A 24-hour consultation service for urgent medical concerns is also available (except during summer and scheduled academic breaks) by calling (615) 322-2427. A recorded message will provide further instructions.

**STUDENT HEALTH SERVICES FEES**

For those students not covered by the Vanderbilt Student Health Insurance, the following is an ESTIMATE ONLY and may vary according to cost of serum.

- Tuberculin Skin Test (PPD) $5
- Rubella Titer $9
- MMR $55
- Diphtheria/Tetanus $24
- Hepatitis B (3 shot series) $75 for three shots
- Varicella Titer $15
- If Varicella Titer is negative, immunization is required (2 shot series) $220 for both shots

1. Time will be available during New Student Orientation to visit the immunization clinic at Student Health. (Rates for tuition and fees are set annually by the Board of Trust and are subject to review and change without further notice.)
2. Students enrolled in the Vanderbilt student health insurance plan can receive some immunizations as part of a preventive care benefit within the plan. These immunizations include: Hepatitis A, hepatitis B, HPV (Gardasil for women), influenza, meningococcal, MMR, pneumococcal, polio, Tdap (tetanus, diphtheria and pertussis), and varicella. Students enrolled in the Vanderbilt student health insurance plan also receive a $300 Wellness Benefit per student per policy year. Dependents of students enrolled in the plan are not eligible for the wellness benefit. The Wellness Benefit only applies when the student is seen at the Student Health Center. There will be a $5 co-pay for each immunization received. If the student goes over the $300 per policy year limit, he/she will be expected to pay either out of pocket or their tuition statement/account will be charged. The following immunizations are included as part of the Wellness Benefit: HPV (Gardasil for men), Japanese encephalitis, rabies, tetanus and diphtheria, tuberculin skin test, typhoid (injection or oral), Twinrix (Hepatitis A and B), and yellow fever.
THE WOMEN’S CENTER

Margaret Cuninggim Women's Center

As part of the Dean of Students office, the Margaret Cuninggim Women’s Center welcomes all members of the Vanderbilt community — students, faculty, staff, alumni, and community members — to take part in our events and resources related to women's and gender topics. Our Gender Matters program offers co-curricular programming aimed to increase awareness of the influence that gender has in our lives. In addition, Gender Matters provides individual support and advocacy around a variety of issues, including gender stereotyping, gender equity, students with children, body image, eating disorders, pregnancy and reproduction, sexual health, and more. Project Safe is a support and resource-referral hub for those affected by power-based personal violence (sexual assault, intimate partner violence, stalking, and bias-related violence). Through the Green Dots violence prevention campaign, we also coordinate a campus-wide effort to involve all members of the Vanderbilt community in creating a safer campus. The Women's Center is open Monday through Friday, 8 a.m. to 5 p.m. and is located at 316 West Side Row. For more information, please call (615) 322-4843. Activities available include a monthly book discussion group and creative life group for women interested in enhancing their lives. www.vanderbilt.edu/WomensCenter.

CAMPUS SECURITY

Vanderbilt University Police Department http://police.vanderbilt.edu/

| Emergency Number: 911 from any Vanderbilt phone or (615)421-1911 |
| from any cell phone | (615) 322-2745 or (615) 421-8873 |
| Non Emergency: | (615) 421-8888 |

Walking Escorts: (615) 421-8888

The Vanderbilt University Police Department, (615) 322-2745, is a professional law enforcement agency dedicated to the protection and security of Vanderbilt University and its diverse community.

The Police Department provides several services and programs:

Emergency Phones

Emergency telephones (Blue Light Phones) are located throughout the University campus and Medical Center.

Each phone has an emergency button that when pressed automatically dials the VUPD Communications Center. An open line on any emergency phone will activate a priority response from an officer. An officer will be sent to check on the user of the phone, even if nothing is communicated to the dispatcher. Cooperation is essential to help us maintain the integrity of the emergency phone system. These phones should be used only for actual or perceived emergency situations.

An emergency response can also be received by dialing 911 from any campus phone. Cell phone users can use (615) 421-1911 to illicit an emergency response on campus. Cell phone users should dial 911 for off campus emergencies. All callers should be prepared to state their location.

Emergency Phone locations are based on recommendations from the Vanderbilt Community. A
map of current emergency phone locations can be found at our website located at http://police.vanderbilt.edu/services/emergency_phones. In addition, The Parking Map (available from the Office of Traffic and Parking) and the map in the Vanderbilt Directory both show the locations of emergency phones.

**Vandy Vans**

The Vanderbilt University Police Department administers the Vandy Vans escort system at Vanderbilt University. The Vandy Vans escort system provides vehicular escorts to designated locations on campus. The service consists of two vans that operate from dusk to 5 am. One van makes a continuous loop around campus, taking approximately 30 minutes, making the following eleven stops: Police Headquarters, Lupton dormitory at Branscomb Quad, 24th Avenue between Carmichael Towers East and West, Kissam Quad at Hemingway, Terrace Place Garage, Wesley Place Garage, North Hall, the Blair School of Music, Highland Quad at Morgan Circle, McGugin Center and the VU Bookstore at 2525 West End Ave.

A second van runs an express route stopping at the following locations: Lupton dormitory at Branscomb Quad, 24th Avenue between Carmichael Towers East and West, Kissam Quad at Hemingway, North Hall, and Highland Quad at Morgan Circle.

There is also a shuttle that makes a loop into downtown Nashville, Thursday through Saturday nights, 6 pm – 11 pm. This shuttle leaves Branscomb every 30 minutes and makes the following stops: The Frisk Center for the Visual Arts, Bridgestone Arena, Riverfront Park, and the Nashville Convention Center.

Stops were chosen based on location, the accessibility of a secure waiting area and student input. Signs, freestanding or located on existing structures, identify each stop. A walking escort can be requested to walk a student from their stop to their final destination. Additional information about Vandy Vans can be found at http://police.vanderbilt.edu/vandy_vans or by calling (615) 322-2558.

**Medical Center Shuttle Service**

Vanderbilt’s Shuttle Service is provided as a convenient way for our visitors, faculty and staff to move between parking locations and buildings located on campus. Using the shuttle service is not a requirement, however is recommended for your convenience.

The Shuttle Service provides several shuttles for a variety of routes daily Monday through Friday. These shuttles are destined to leave from each location every fifteen to thirty minutes, depending on location and route. Each route is distinguished by a colored name. To find a shuttle going to your desired location, simply go to http://www.mc.vanderbilt.edu/root/pdfs/parking/master_shuttle_map.pdf

Or call (615)936-1215.

**Walking Escort Service**

As a supplement to the Vandy Vans, VUPD provides walking escorts to students, faculty, and staff walking to and from any location on campus during the nighttime hours. The telephone number to call for a walking escort is (615) 421-8888 (off campus) or 1-8888 (on campus).
Lost and Found

Recovered property may be turned in at any time to the Police Department. Inquiries about lost items may be made by calling the Police Department Lost and Found property clerk at (615) 343-5371, Monday through Friday, from 8:30 am to 4:30 pm.

Further information on available programs and services can be found at www.police.vanderbilt.edu.

Additional information on security measures and crime statistics for Vanderbilt is available from the Police Department, 2800 Vanderbilt Place, Nashville, TN 37212. Information is also available at www.police.vanderbilt.edu

PSYCHOLOGICAL AND COUNSELING CENTER

The Psychological and Counseling Center phone [(615) 322-2571 and fax (615) 322-1326] located at 2015 Terrace Place is a broad-based center available to students, faculty, staff, and their immediate families. There is no charge for the following services:
- Individual and group counseling and psychotherapy for personal problems and issues
- Psychological assessment
- Group support programs for learning skills, such as relaxation, assertiveness, marital communications, reading and study techniques, and weight, stress, and time management
- Administration of national testing programs
- Career choice/change and college major counseling
- Outreach and consultation with faculty and staff
- Campus speakers and educational programs
- Counseling for test anxiety

For more information, go to http://www.vanderbilt.edu/pcc/

BOOKSTORE (Barnes and Noble at Vanderbilt)

The Barnes & Noble at Vanderbilt University Bookstore
2501 West End Avenue
Nashville, TN 37203
Stocks assigned textbooks for classes, reference books, leisure reading, and University memorabilia. The bookstore also stocks school supplies, dormitory accessories, Vanderbilt clothing, souvenirs, and the official Vanderbilt University class ring. The Barnes and Noble Bookstore at Vanderbilt accepts the Vanderbilt card, Discover, Visa, MasterCard, and American Express cards. Please call (800) 288-2665 for more information.

CAMPUS COMMUNICATIONS

The University Calendar: The online Calendar (850 Baker Bldg. VU Sta B #356009) provides event information for scheduled University and Nashville events, as well. You can access the Calendar from the Vanderbilt home page or at http://calendar.vanderbilt.edu. For information, you may contact Gay Tidwell, Coordinator, at (615) 343-6887 or e-mail: university-calendar@vanderbilt.edu. The Academic calendar can be accessed at http://www.registrar.vanderbilt.edu/calendar.

The Vanderbilt View: This is a publication of Vanderbilt University for faculty, staff, students, and others of the University community. The Vanderbilt View is published monthly. It is offered to off-
The Vanderbilt View: The Vanderbilt View is a student-written, faculty-reviewed magazine that delivers news of events and happenings on campus. It is published twice each semester and distributed on the central campus and immediately inside the front doors of Frist Hall on Monday, Wednesday, and Friday. Although its articles are directed primarily at undergraduate concerns, it will keep you informed of university issues. Local restaurants often advertise specials and provide coupons. Classified ads can be placed by calling the advertising office at (615) 322-2424.

Online Directory:
People Finder” can be accessed at https://phonedirectory.vanderbilt.edu/cdb/index.jsp.

MyVU: This is an online service at www.vanderbilt.edu/myvu that includes a calendar of events as well as articles of interest.

MyVUMC: A biweekly email newsletter of the Vanderbilt Medical Center for Faculty, Staff and Students. www.mc.vanderbilt.edu/myvumc

VUMC Reporter: This weekly publication is distributed on Fridays and keeps the public up to date with ongoing medical research, new techniques and procedures in the human-health research, and upcoming seminars, as well as accomplishments of the faculty and staff of the Medical Center. For more information, visit http://www.mc.vanderbilt.edu/reporter/.

The Vanderbilt Nurse: This bi-annual magazine is published by the Vanderbilt University School of Nursing in cooperation with the Office of Alumni Publications. Its purpose is to inform alumni, students, parents, faculty, and friends of the institution about programs, activities, and issues of interest. Go to http://www.vanderbilt.edu/vanderbiltnurse to read the most recent copy.

The VUMC House Organ: This monthly magazine is for the staff, faculty, volunteers, and students of the Vanderbilt University Medical Center. It is published by the Office of News and Public Affairs of VUMC and can be found at www.mc.vanderbilt.edu/houseorgan.

CHILD AND FAMILY CENTER

Child Care

The Vanderbilt Child Care Centers operate as a service to university, hospital and medical and nursing school faculty, staff members, and students. The Program serves children six-weeks old to five years. The center is open from 6:00 am to 6:00 pm Daily activities include outdoor play, language experiences, music, and art. The center is accredited by the National Academy of Early Childhood Programs. Tuition is based on the child’s age. Additional information is available on their website at Http://childandfamilycenter.vanderbilt.edu.

Family Center

The Family Center provides resources and referral services for members of the Vanderbilt community. The objective of the family center is to assist the faculty, staff, and students with finding the help they need related to a variety of issues, including elder care, adult day care, tutoring services, school-age care, and information on summer camps. The Vanderbilt Sitter service connects those who are interested in providing care for dependents of all ages to those members of the Vanderbilt community who need sitter services. Parents in a Pinch provides in home back-up care for adults and children of all ages.
SARRATT STUDENT CENTER

The Sarratt Student Center offers a wide variety of activities for students, faculty, and staff. Programs include exhibits in the Sarratt Gallery, films in the Sarratt Cinema, art studios, the Overcup Oak restaurant and pub, and conference and meeting rooms available by reservation.

Hours of Operation:

Fall and Spring semesters: 24 hours a day (card access after 12 am for students only)

*NOTE: hours and access are limited during breaks

Summer semester:
- Monday – Friday: 7 am - 5 pm (varies per event)
- Saturday: closed
- Sunday: closed

Summer hours are posted on the door

The Sarratt Student Center sponsors many other events and activities throughout the year that enrich the cultural life of the University. The student-run Vanderbilt Programming Board offers various activities throughout the academic year. The Sarratt Box Office, located on the first floor of Sarratt Student Center, sells tickets for most campus events and is a Ticketmaster outlet. Ticketmaster Box Office hours are 10 am to 8 pm seven days a week (hours are limited during breaks and the summer) and payment methods include cash, check, Commodore Card, Visa, and Mastercard. Tickets to most Vanderbilt events are significantly discounted for undergraduate and graduate students. Call (615) 343-3361 for information regarding upcoming events. For more information, go to http://www.vanderbilt.edu/sarratt

STUDENT RECREATION CENTER

Vanderbilt students enjoy the use of the Student Recreation Center, a state-of-the-art facility that includes a weight room, indoor track, basketball courts, squash and racquetball courts, an aerobics room, and 36-meter by 25-yard pool. The Office of Campus Recreation sponsors a wide spectrum of personal indoor and outdoor activities and sport clubs for students. Call (615) 343-6627 for information on specific activities and center hours. There is no charge to use the Student Recreation Center.

For more information, go to http://www.vanderbilt.edu/CampusRecreation/
VANDERBILT UNIVERSITY SCHOOL OF NURSING:
ACADEMIC POLICIES

ACADEMIC STANDARDS

GOOD ACADEMIC STANDING

Good academic standing is defined as both a semester GPA of 3.0 or higher, a cumulative GPA of 3.0 or higher, and no grade of less than a B- in any course.

COMPLETION OF PROGRAM

Students admitted to the DNP program complete all courses within five calendar years. Leaves of absence are counted in this time frame.

GRADING SYSTEM

All work is graded by letters, interpreted as follows:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Numerical Equivalent</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>97-100</td>
<td>4</td>
</tr>
<tr>
<td>A</td>
<td>93-96</td>
<td>4</td>
</tr>
<tr>
<td>A-</td>
<td>90-92</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>87-89</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>83-86</td>
<td>3</td>
</tr>
<tr>
<td>B-</td>
<td>80-82</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>77-79</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>73-76</td>
<td>2</td>
</tr>
<tr>
<td>C-</td>
<td>70-72</td>
<td>1.7</td>
</tr>
<tr>
<td>F</td>
<td>69 or below</td>
<td>0</td>
</tr>
</tbody>
</table>

All F grades are counted in the computation of grade point ratios, unless the student repeats the course and earns a passing grade.

M: Missing a final examination. The designation of M is given to a student absent from the final examination who has communicated with the instructor about the absence in advance. The grade F is given if the student could not have passed the course even by passing the final examination or if the instructor was not notified. The final examination must be taken at a time designated by the instructor. The grade M must be removed in the next semester or the grade automatically will be converted to F.

I: Incomplete. Students for whom an extension has been authorized receive the grade I, which stands until the work has been made up. The course coordinator or instructor who authorizes the extension confers with the student to establish a final time limit for completion of the missing work. Copies of the agreement are given to the student, the instructor, and the registrar of the School of Nursing. The grade I must be removed in the next semester or the grade automatically will be converted to F.
Late work: Essays, book reviews, papers, laboratory reports, etc. must be turned in no later than the last day a particular class meets or earlier if so specified by the instructor. The grade for work not done in compliance with this schedule is zero unless an extension has been granted. The student must present a petition for an extension to the course coordinator or instructor at least a day before the work is due, and the petition must be endorsed by the instructor.

CHANGE OF COURSE

Dropping a Course. The first five class days of the semester are allocated for necessary changes of course. Courses may be dropped without entry in the final record within two weeks of the first day of classes. Courses may be dropped only after consultation with the student’s adviser and the course instructor. Dropping a course may affect the sequencing of the program of study and may change the student’s expected date of completion of the course work.

Withdrawing from a Course: Students may withdraw from courses and receive the grade W (withdrawal) according to VUSN policy. For nursing courses, the student will receive the grade W (withdrawal) if less than half of the course has elapsed. Students may not withdraw from a course after the course is half completed. A student must be in good academic standing to be eligible to withdraw from a course.

REPEAT COURSES

Students enrolled in the DNP program may repeat a course only with the permission of the DNP Student Admissions and Academic Affairs Committee (SAAA).

1. A course taken in the School of Nursing may not be repeated outside the school for credit toward the degree.
2. Nursing courses may be repeated only once.

Students who do not earn at least a B- in a course must repeat that course. Students may repeat only one course one time. If a student makes below the required grade B- in another course, the student will be dismissed. Courses taken for a letter grade may not be repeated on a Pass-Fail basis, nor may a grade indicting withdrawal or incomplete work be counted in place of a letter grade. Only the latest grade counts in calculation of the grade point average and progress toward a degree.

PROBATION

Students are expected to maintain a 3.0 grade point average each semester. The academic performance of students is reviewed at the end of each semester. Students are placed on academic probation unless they earn a 3.0 average each semester. A student who is not making satisfactory progress toward the degree will be dismissed if improvement is judged to be unlikely.

A student may be placed on probation only once during the entire program of study. If the student’s record in another semester warrants probation, the student will be dismissed. A student who is not making satisfactory progress toward the degree may be dismissed from the School of Nursing or may be advised to go on leave of absence or withdraw. When a student is placed on or removed from probation, letters are sent to the student, the student’s adviser, and the program director.

If a student cannot improve his or her grade point average because the needed course cannot be repeated in the following semester, the student will be continued on probation if satisfactory completion of the course will give the student a 3.0 grade point average.
As the School of Nursing is a professional school, the faculty may, for the purposes of evaluation, render opinion on the student’s total ability. A student’s promotion in the program is determined by the DNP Student Admissions and Academic Affairs Committee at the end of each semester. The committee, on the recommendation of the student’s instructors, program director, and/or academic adviser, promotes only those students who have demonstrated personal, professional, and intellectual achievement consistent with faculty expectations at the student’s particular stage of professional development. Students who are deficient in a major area or areas will be required to repeat course/clinical work or to complete additional efforts satisfactorily in order to remedy deficiencies. Students deficient in a major undertaking or who demonstrate marginal performance in a major portion of their work will be dismissed.

READMISSION

A student who has been dismissed or has withdrawn from the program may apply to the DNP Student Admissions and Academic Affairs Committee for readmission after an intervening period of not less than one semester. The committee will consider such cases on presentation of substantial evidence of a responsible and successful period of work or study during the intervening period. A former student having successfully completed a tour of duty in the armed forces will be classified in this category. There is no guarantee, however, that a student will be readmitted. This will depend on (a) the faculty’s evaluation of the likelihood of the applicant’s successful performance in succeeding work; (b) the competition of other applicants; and (c) class space available.

A student readmitted after having been advised to withdraw or after having been suspended or dropped is on probation during the first semester back in residence.

Any VUSN student (includes full & part-time students) who completed a background check through Certified Background but had a break in enrollment, including a deferral or leave of absence, must submit information for a new background check through CertifiedBackground.com using package code, VA14bc, upon return. Follow the ‘Order Now’, Students link on the Certified Background homepage.”

PROGRESSION

Most required nursing courses are sequential, and a student who fails to pass such a course cannot progress in the nursing curriculum. A student seeking a waiver of this policy must submit a written request to the DNP Student Admissions and Academic Affairs Committee for an exception to the rule.

STUDENT COMPLAINT AND GRIEVANCE PROCEDURE

Faculty members welcome the opportunity to work closely with students to facilitate learning and assist in meeting course objectives. The student should first discuss any concerns regarding an instructor or a course with the instructor involved. If further discussion is needed, the student should contact the course coordinator. If the problem still persists, the student should make an appointment with Linda Norman, senior associate dean for academics. At the time of the appointment with Dean Norman, the student should bring a written statement of the problem or grievance. If the problem is still unresolved, the student should contact Dean Conway-Welch for assistance.

Students enrolled in distance education programs offered by Vanderbilt University in other states should seek resolution for complaints through Vanderbilt’s complaint procedure. Distance education students may also contact the appropriate authority in their state of residence. For further information please visit http://www.vanderbilt.edu/provost/vanderbilt-university-distance-education-complaint-and-grievance-procedures-2/
WITHDRAWAL FROM THE UNIVERSITY

Students planning to withdraw from the University should contact the Registrar or the Assistant Dean for Enrollment Management in the School of Nursing to initiate proper procedures.

REQUIRED DOCUMENTATION

New Student Requirements

Upon acceptance, all entering DNP students must complete a background check through Certified Background using the code provided below. DNP students should keep the following documentation on-hand and may be asked to complete the Immunization Tracker depending upon the nature of their practice situation. Special Students, who are only enrolled in one course and are not seeking a degree from the School of Nursing, are not required to complete a background check or the new student requirements unless they apply and are admitted to VUSN.

All student requirements and forms can be found on the Clinical Placement website at: http://www.nursing.vanderbilt.edu/clinicalplacement/newstudents.html

1. **Background check** and submitting requirements:
   a. Go to www.CertifiedBackground.com and click on "Students."
   b. In the Package Code box:
      DNP enter package code: **VA14bc**
   c. Enter your payment information – Visa, MasterCard (credit or debit), or money order mailed to Certified Background (NOTE: there is a processing fee for this service). Follow the online instructions to complete your order. *Vanderbilt School of Nursing has negotiated a special student rate which includes the student tracker.

   **Physical exam** within six months of acceptance to the program, authenticated by an MD or NP, documenting evidence of good physical and mental health. Use the **Health Questionnaire** form.

2. **Measles, Mumps, Rubella**: two (2) MMR vaccines OR lab evidence of immunity (positive titers) for Measles (Rubeola), Mumps and Rubella.

3. **Varicella**: two varicella vaccines given 28 days apart OR lab evidence of varicella immunity (positive titer).

4. **Hepatitis B**: proof of immunity (positive surface antibodies 10 or greater). Students who have not completed the 3-part series OR those who decline to receive the immunization must sign the **Hepatitis B Waiver**.

5. **Tetanus -Diphtheria - Pertussis (Tdap)**: documentation of vaccination within last ten years.

6. Initial two-step **tuberculin skin test** (injections placed 1-3 weeks apart).
   - If both readings are negative, repeat 1 step TB **annually**.
- If positive, medical evaluation and documentation of a clear chest x-ray within 1 year of admission to VUSN and annual completion of the Annual Past-Positive TB Screening Form confirming the absence of symptoms by a MD or NP. If there is evidence of a positive chest x-ray and/or symptoms of TB, please follow-up for medical evaluation.

7. **Influenza**: 1 dose of TIV (trivalent) or LAIV (live attenuated) annual vaccination (highly recommended) OR sign waiver to decline seasonal flu vaccine. **Please note** - many clinical agencies are requiring evidence of annual vaccination or the wearing of a mask during flu season.

8. Current **health insurance** coverage either through the university insurance plan or by another policy. For more information on student health insurance visit: [http://www.vanderbilt.edu/student_health/student-health-insurance](http://www.vanderbilt.edu/student_health/student-health-insurance) Health Insurance is required of all students by Vanderbilt University. Clinical sites also require that you have health insurance to cover any illness or injury that you may incur during your clinical training experience.

9. Current **CPR certification** for adult, child, and infant (Vanderbilt accepts only American Heart Association (AHA) BLS for the Healthcare Provider cards.) See webpage for **CPR Training Information**. Additional CPR certifications may be required by specialty.

10. Copy of an unencumbered **Registered Nurse’s license** in the state(s) where you will be doing clinical training (if applicable). In addition, DNP students must have Advance Practice Registered Nurse (APRN) designation in their home state or equivalent and national board certification in their area of specialty as appropriate.

11. **HIPAA & OSHA Safety Training**: This is required **annual training**. Additional training may be required for particular sites. **Instructions for accessing and completing the training will be emailed to your Vanderbilt account in mid-August.**

Students should be aware that some practice sites may require additional immunizations and/or blood titers, drug screening, or additional criminal background checks. The immunizations and titers can be done at Student Health [http://www.vanderbilt.edu/student_health/](http://www.vanderbilt.edu/student_health/) once enrolled. If you plan to use Student Health please call to schedule an appointment at (615) 322-2427; take a copy of your health questionnaire and any required documentation with you. Students will be responsible for all charges incurred in order to meet clinical site requirements.

Due to certain restrictions, **VUSN is not able to accommodate clinical placements in all locations**. Please check with the placement office.

**Current Student Requirements**

**Disclosure of offenses post-background check completion:**
Current VUSN students (includes full & part-time students) are required to immediately report to their Faculty Advisor and Linda Norman, Senior Associate Dean for Academics any arrest, criminal charge or conviction occurring after his or her background check has been completed. Required disclosure also includes but is not limited to; allegations, investigations and/or disciplinary action from any licensing board or agency included under the Nationwide Healthcare Fraud and Abuse scan; Office of Inspector General (OIG), General Services Administration (GSA), FDA Debarment Check, Office of Regulatory Affairs (ORA), Office of Research Integrity (ORI), and Medicare and Medicaid Sanctions.
**Student Requirements when returning from Leave or Deferrals**

Any VUSN student (includes full & part-time students) who completed a background check through Certified Background but had a break in enrollment, including a deferral or leave of absence, **must submit information for a new background check through CertifiedBackground.com using package code, VA14bc, upon return.** Follow the ‘Order Now’, Students link on the Certified Background homepage.

**CLASS ATTENDANCE**

At the beginning of the semester, the instructor will explain expectations for attendance and participation for a course and their influence on the evaluation process. It is expected that students will attend all synchronous and asynchronous DNP classes and practice experiences. Attendance is mandatory for on campus intensives each semester.

**COURSE LOAD**

The unit of measure of the student’s workload is the semester hour. All references to credit hours are semester hours.

The normal full-time schedule is 9 hours per semester. Part-time students must follow the approved part-time program of study. The student status is defined as follows:
- Full-time: registered for 9 or more hours
- Half-time: registered for at least 4 hours and less than 9 hours
- Less than half-time: registered for at least 1 hour and less than 4 hours.

Basic tuition is charged per credit hour.

**EXAMINATIONS**

Examination policies are determined by the instructor. A record of all grades given during the course, all final examinations, and major papers are kept on file by the instructor for one year following the conclusion of the course.

A number of alternatives to standard in-class examinations are permitted at the instructor’s discretion. These include take-home and self-scheduled examinations, oral examinations, on-line examinations, and term papers. A course may have no final examination at all if there are adequate opportunities for evaluation during the semester. Final examinations must be conducted during the final examination period at the end of the module or at the end of the semester.

Students are expected to take exams at the times specified in the course syllabus and as announced by the course coordinator. Students must receive permission from the faculty prior to the scheduled exam to take the exam at a different time. Any student more than fifteen minutes late to an examination to an in-class or on-line examination must present a satisfactory excuse. No student will be admitted after the first hour.

**APA FORMAT FOR WRITTEN PAPERS**

The Publication Manual (6th ed.) of the American Psychological Association (APA) is used for the style and format of all papers required in the School of Nursing. This manual is in the Central
Library and in the Eskind Biomedical Library, or may be purchased at the Rand Hall Bookstore or the Light Hall Bookstore. Most nursing students purchase the APA manual to have as a personal reference. APA format should be used in the preparation of written papers, such as term papers, abstracts, research proposals, and research reports in the School of Nursing. The sample paper in the APA manual is particularly helpful.

The Publication Manual of the APA provides a uniform and reasonably simple method of format and style to be used when writing research papers. Originally designed by APA for papers submitted for publication in its journal, the APA style has become the accepted method for writing papers by numerous colleges and universities.

**PROGRAM OF STUDIES AND THE ACADEMIC PLANNER**

During the first semester of study, all students must update the academic planner in YES (YOUR ENROLLMENT SERVICES). Students will have an adviser registration hold effective for the second term of enrollment. This hold will be released by the faculty adviser after consultation with the student and adviser review of the academic planner.

**To navigate to the student’s Academic Planner:**

- Navigate to YES at [http://yes.vanderbilt.edu](http://yes.vanderbilt.edu). If using Internet Explorer for the browser, be sure to have at least version 7.0, although version 9.0 could yield errors.
- Under the Applications tab choose Course Catalog.
- On the right side of the screen click inside the gray box that says “PLANNER.”
- Once inside the planner, the Filter can be used to narrow the list by the semester for which it has been tagged.

**To add a new course to the planner:**

- Go back to the Catalog Search and enter the course.
- Click on the blue plus sign next to that course in the search results.
- Go to the Planner and the most recently added course(s) will appear at the bottom of the list.

**To remove a course from your planner:**

- Click on the red “minus” icon next to the course in the planner list and it will be removed.

**Tagging:**

- In the planner, click on the blue icon that looks like a tag next to the course.
- In the window that appears, tags can be added by clicking on a term in the “Add Tags” section.
- Tags can be removed by clicking on the red “minus” icon under “Current Tags.”
- DO NOT tag a course with more than one term.
Remember, the Academic Planner is NOT the same as registration. Registering for courses for each term is still required. See HOW TO REGISTER.

If you need additional help, please watch the helpful tutorial at http://www.vanderbilt.edu/helpcontent/wp/video/adv/sPlanner_and_Tags.swf.

When a change in the program or absence from the school for one or more semesters is anticipated, students must file an approved change of status form with the adviser. Full and part-time programs of studies are available in this handbook as part of the curriculum plan for each specialty. Request for Change of Status forms are available on the Vanderbilt University School of Nursing website at www.nursing.vanderbilt.edu/current/forms.html. Copies are to be filed with the faculty adviser and the School of Nursing registrar.

Students who wish to alter the required program of studies may petition to do so by giving justification for the request and proposing an alternative program of study, which must be approved by the academic adviser, Program Director, and Senior Associate Dean for Academic Affairs.

Students on academic probation who wish to alter their program of study must petition for review by the Student Admissions and Academic Affairs Committee.

STUDENT LIFE CONDUCT POLICY

VUSN Student Conduct Policy Guidelines

1. Academic Integrity. Vanderbilt students are bound by the Honor System inaugurated in 1875 when the University opened its doors. Fundamental responsibility for the preservation of the system inevitably falls on the individual student. It is assumed that students will demand of themselves and their fellow students complete respect for the Honor System. The student, by registration, acknowledges the authority of the Honor Council of the School of Nursing. Students are encouraged to review the Student Handbook for a more complete explanation of the Honor Code and the role of the School of Nursing Honor Council.

2. Personal Integrity. It is expected that students honestly represent their credentials, abilities, and situation. Behaviors such as altering transcripts or work history or misrepresenting one’s financial situation in order to obtain financial aid are prohibited.

3. Professional Integrity. It is expected that students behave in clinical settings in a way that is consistent with the goal of providing optimal patient care. Students’ interactions with clients and other professionals in these settings should respect differences and reflect nursing’s ultimate commitment to caring.

4. Respect for Person and Property. It is expected that students respect individual differences, welcome diverse viewpoints, and avoid stereotyping. It is important that Vanderbilt University faculty, staff, and students enjoy an environment free from implicit and explicit behavior used to control, influence, or affect the wellbeing of any member of our community. Harassment of individuals based on their race, sex, religion, color, national or ethnic origin, age or disability is unacceptable and grounds for disciplinary action, and also constitutes a violation of federal law. Equally unacceptable within the University is the harassment of individuals on the basis of their sexual orientation, gender identity, or gender expression. Reference: ANTIHARASSMENT POLICY#: HR002. It is the students’ responsibility to contribute
to the maintenance of the physical environment of the School and the university. Behaviors such as harassment, disruption of class, misuse of materials or facilities of the university library and unauthorized use of services, equipment or facilities are prohibited. Students are also expected to respect their classmates and professors by adhering to general classroom decorum in being punctual, refraining for cell phone usage as well as addressing faculty and students in a respectful tone.

5. **Smoking Policy.** Smoking and the use of tobacco products is prohibited in all VUMC/VUSN facilities and on the grounds of the Medical Center campus, including the School of Nursing to 21st Avenue. Additionally, smoking and use of tobacco are banned in all property owned by the Medical Center including vehicles and on property leased by the Medical Center. No medical exceptions are allowed for outpatients or inpatients. The sale of smoking/tobacco material is prohibited on all VUMC properties.

6. **Weapons.** The use or possession of fireworks, firearms, or other weapons, explosives, or any type of ammunition on university premises is prohibited. (Student use or possession of these materials is prohibited off campus, as well, when such use or possession is illegal or may endanger the health or safety of members of the university community, or the community at large.)

Sports weapons must be kept in the custody of the University Police Department, which is open twenty-four hours a day. It is a felony in the state of Tennessee to carry a weapon on a campus for the purpose of going armed. Air rifles and “BB” guns are considered to be firearms, the use and possession of which are prohibited on campus.

The use or possession of stun guns, flying Tasers, cattle prods, liquid stun guns, or other electrical devices designed to disrupt the human neurological system for the purpose of incapacitation is prohibited.

Vanderbilt University School of Nursing students are also under the jurisdiction of Vanderbilt University Student Conduct Policies. These can be accessed by going to the following website: [http://www.vanderbilt.edu/student_handbook/chapter3.html](http://www.vanderbilt.edu/student_handbook/chapter3.html).

**STUDENT RECORDS (BUCKLEY AMENDMENT or FERPA)**

Vanderbilt University is subject to the provisions of federal law known as the Family Educational Rights and Privacy Act (the Buckley Amendment or FERPA). This act affords matriculated students certain rights with respect to their educational records. These rights include:

*The right to* inspect and review their education records within 45 days of the day the University receives a request for access. Students should submit to the University Registrar written requests that identify the record(s) they wish to inspect. The University Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the University Registrar does not maintain the records, the student will be directed to the university official to whom the request should be addressed.

*The right to* request the amendment of any part of their education records that a student believes is inaccurate or misleading. Students who wish to request an amendment to their educational record should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the student will be notified of the decision and advised of his or her right to a hearing.

*The right to* consent to disclosures of personally identifiable information contained in the student’s education records to third parties, except in situations that FERPA allows disclosure without the student’s consent. One such situation is disclosure to school officials with legitimate educational
A “school official” is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including University law enforcement personnel and health staff); a person or company with whom the University has contracted; a member of the Board of Trust; or a student serving on an official University committee, such as the Honor Council, Student Conduct Council, or a grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The Buckley Amendment provides the University the ability to designate certain student information as “directory information.” Directory information may be made available to any person without the student’s consent unless the student gives notice as provided for below. Vanderbilt has designated the following as directory information: the student’s name, address, telephone number, e-mail address, date and place of birth, major field of study, school, classification, participation in officially recognized activities and sports, weights and heights of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous educational agency or institution attended by the student, and other similar information. Any new entering or currently enrolled student who does not wish disclosure of directory information should notify the University Registrar in writing. No element of directory information as defined above is released for students who request nondisclosure except in situations allowed by law. The request to withhold directory information will remain in effect as long as the student continues to be enrolled, or until the student files a written request with the University Registrar to discontinue the withholding. To continue nondisclosure of directory information after a student ceases to be enrolled, a written request for continuance must be filed with the University Registrar during the student’s last term of attendance.

If a student believes the University has failed to comply with the Buckley Amendment, they may file a complaint using the Student Complaint and Grievance Procedure as outlined in the Vanguard University Student Handbook. If dissatisfaction with the outcome of this procedure, students may file a written complaint with the Family Policy and Regulations Office, U.S. Department of Education, Washington, D.C. 20202 (1-800-872-5327) Questions about the application of the Family Educational Rights and Privacy Act should be directed to the University Registrar or to the Office of the General Counsel.

VANDERBILT UNIVERSITY SCHOOL OF NURSING:
REGISTRATION

PRE-REGISTRATION

Each semester, at a time specified in the calendar, all students are required to confer with their academic advisers and pre-register for courses for the next semester. Priority for available space in a course is given to students who pre-register. Students are requested to have alternatives for any course that may not be obtainable.

Registration

Registration for classes is done by computer on Your Enrollment Systems (YES) (see calendar) Students should check carefully with their faculty advisers concerning progress toward completing degree requirements and to make necessary revisions in their program of studies.
The School of Nursing requires continuous registration of all degree candidates. Responsibility to maintain registration rests with the student. To retain student status, the student must register each fall, spring, and summer semester or secure an approved leave of absence. Students who are registered for zero hours in order to satisfy requirements for an incomplete grade are considered degree candidates. Students registering for zero hours or only completing an incomplete grade are charged one-half credit hour tuition.

**HOW TO REGISTER**

Log in to YES (Your Enrollment Services) either on the VU home page under quick links or on the VUSN home page under Current Students, Resources with Restricted Access, YES. The landing page will provide you with links to all academic applications, including the new student registration.

**General Navigation**

-To navigate to the applications, use the icons below your student photo or the applications tab in your navigation bar at the top of the screen. The navigation bar is the same throughout many of your academic applications. Select the student registration link from your navigation bar or the available icons.

-The registration application uses carousel navigation within the class search, catalog search and schedule. Within the class search carousel, you can view your cart and your enrolled classes by selecting the arrows next to the quick search or by using the links to the top right of your screen.

**Quick Class Search**

-The search engine allows users to search classes available in a specific term based on Subject Area (NURS), Subject Code (400), and Class Title (i.e., Foundations of Professional Nursing I).

-“Search as you type” technology returns results after 3 characters have been typed and refines results as additional characters are entered.

-Results show the class section number, enrollment numbers, credit hours, meeting pattern and times, meeting locations (if known) and instructor(s) displayed. If the meeting times are TBA, a note will direct the student to see the block schedule for his/her specialty on the VUSN website.

**Detailed Class Enrollment Information**

-The student can place courses into your cart as soon as the school’s schedule is posted for your career. To enroll in all of the classes you have put into your cart, press the “select all” button at the bottom of the cart. To select a few at a time, use the checkboxes to the left of the cart to choose the classes and then click the “enroll” button at the bottom of the list of classes.

-Three indicators will be used to show a particular class status. The green dot means the class is open for enrollment, the blue square refers to a closed class, and the orange triangle indicates that the class is in wait-list status. Students needing enrollment in a class that is CLOSED (blue square), should contact either Logan Key, Registrar, at logan.key@vanderbilt.edu or Pat Seitz, Assistant Registrar, at pat.seitz@vanderbilt.edu for assistance.

-Confirmation of enrollment will be found in messages at the bottom of the screen after the “enroll” button has been selected. These messages either indicate that the student has
successfully enrolled in the class or that the student was not enrolled. If the student is not successfully enrolled, the error message will explain why. If you receive an error message, you will have to click on the message to make it disappear. Success messages will disappear after five seconds.

**Enrolled Classes**

- The enrolled classes page will show all of a student’s enrollments for each term.

**Dropping a Class**

- To drop a class, the student must be within an open enrollment period. If not, contact the school registrar, Logan Key, or Pat Seitz. To drop a class, simply click the red minus sign next to the class you wish to drop. The system will ask “are you sure you want to drop this class?” Choose “yes” or “no.” Once the system has dropped you from the class, it will no longer show in the enrolled classes list. To see the dropped class, select the dropped filter checkbox at the upper right of your screen, and the dropped class will appear on this list.

**Grading Basis**

- If the student wishes to take a course P/NP (Pass/No Pass), it is necessary to consult the instructor and then contact the school registrar.

**Enrolling in a Variable Credit Class**

- To edit the hours of a variable credit class, use the same blue notebook icon to the right of the class. Use the hours dropdown to select the number of hours.

**Viewing Your Schedule**

- To view your schedule, select “schedule” in your navigation bar.

**Catalog Search**

- The catalog search is a digitized and searchable copy of the black book with some additional information. This will show the type of component (lecture, lab, etc.) that are required for each course.
VANDERBILT UNIVERSITY SCHOOL OF NURSING:
HONOR CODE, CONDUCT CODE AND
SOCIAL MEDIA POLICY

VANDERBILT UNIVERSITY HONOR CODE

Vanderbilt students are bound by the Honor System inaugurated in 1875 when the University opened its doors. Fundamental responsibility for the preservation of the system inevitably falls on the individual student. It is assumed that students will demand of themselves and their fellow students complete respect for the Honor System. All work submitted as a part of course requirements is presumed to be the product of the student submitting it unless credit is given by the student in the manner prescribed by the course instructor. Cheating, plagiarizing, or otherwise falsifying results of study are specifically prohibited under the Honor System. The system applies not only to examinations but also to written work and computer programs submitted to instructors. The student, by registration, acknowledges the authority of the Honor Council of the School of Nursing.

Students are expected to become familiar with the Student Handbook, available at the time of registration, which contains the constitution and bylaws of the Honor Council and sections on the Graduate Student Conduct Council, Appellate Review Board, and related regulations.

The following are Honor Code violations:

1. Cheating on an exercise, test, problem, or examination submitted by a student to meet course requirements.
2. Plagiarism on an assigned paper, theme, report, or other material submitted to meet course requirements.
3. Failure to report any known or suspected violation of the Honor Code.
4. Any action designed to deceive a faculty member of a fellow student regarding principles contained in the Honor Code.
5. Use of papers or texts prepared by commercial or non-commercial agents and submitted as a student’s own work.
6. Submission of work prepared for another course without prior authorization from the instructors involved.
7. Falsification of any results pertaining to a study or one’s research.

Punishment for an Honor Code violation, when required, will be chosen from among the following list of options:

1. Reprimand from the instructor involved, at his or her discretion.
2. Failure of the work in which the violation occurred.
3. Failure of the course in which the violation occurred.
4. Suspension from school for not less than the remainder of the semester and not more than two semesters.
5. Expulsion from school for providing false information, verbally or written, to an Honor Council investigator or at an Honor Council hearing.

Penalties will be determined by a vote of the Honor Council. Decisions of the Council are subject to appeal through the Appellate Review Board. Requests for appeal must be submitted in writing to the chairman of the Appellate Review Board within seven days of the decision in question.
NURSING HONOR COUNCIL

The Honor Council is an organization that seeks to preserve the integrity of the Honor Code. Membership on the Nursing Honor Council consists of representatives from the DNP program and Specialty and Pre-Specialty students from the MSN program. Representatives serve for one year from September through August. Officers of the council must be full-time students in good standing. Alternates are elected to serve in the absence of representatives.

CONSTITUTION OF THE HONOR COUNCIL
OF THE SCHOOL OF NURSING
OF VANDERBILT UNIVERSITY

Article I – Name

The name of the council shall be the Honor Council of the School of Nursing of Vanderbilt University.

Article II – Purpose

The Council is an organization of students that seeks to preserve the integrity of the Honor Code at Vanderbilt University. It aims to secure justice for any student under suspicion of dishonesty, to vindicate his or her name if the suspicion of dishonesty is disproved, and if the suspicion of dishonesty is proved, to protect the honor and standing of the remaining students by his or her punishment as shall be set forth in the by-laws. It proposes to do this in accordance with the procedures, rules and organization hereinafter set forth.

Article III – Jurisdiction

The Honor Council shall take cognizance of the giving or receiving of aid by any student without the knowledge or consent of the instructor concerned.

This applies to all tests, themes, term papers and examinations, and to any other work unless specifically designated by an instructor not to be under the Honor Code.

Any student taking a course or courses in other departments of the University, regardless of where registered, is to this extent under the jurisdiction of the Honor Council and subject to any penalties it may impose.

Article IV – Membership, Elections and Vacancies

The Honor Council shall consist of a minimum of seven and a maximum of twenty-one members. Students are invited to serve via a self-nomination process. The self-nomination process shall be concluded no later than four weeks following the beginning of the fall term. Honor Council members may be full- or part time students and must be in good academic standing.

All members of the Honor Council shall serve a term of one calendar year (September to August) and may be called for duty at any time during that year.
In the event of a membership less than 7, another call for self-nomination will be made.

**Article V – Officers and Their Duties**

The Council shall elect from their number the following officers:
1. Chairperson
2. Vice Chairperson
3. Recording Secretary

The duties of the Chairperson shall include:

(a) presiding at all meetings of the Council.
(b) determining whether a pre-hearing will be held based on investigative report
(c) arranging for the hearing of any student accused
(d) summoning the accused and witnesses in all hearings and all persons coming before the Council.
(e) performing all duties common to the office

The duties of the Vice Chairperson shall be to (a) supervise all investigations and (b) serve as Chairperson when the Chairperson is unable to perform his or her duties.

The duties of the Recording Secretary shall include:

(a) notifying members of all hearings and meetings.
(b) keeping full minutes and tape recordings of all meetings and all hearings and delivering these to the Office of the Faculty Adviser.

The duties of all members of the Council shall include:

(a) attending all meetings and hearings as requested.
(b) investigating allegations as requested.
(c) reporting results of investigations to the Council.

**Article VI – Meetings**

One organization meeting of the Honor Council shall be held within one (1) month after conclusion of self-nomination process.

Special meetings may be called by the chairperson at any time.

**Article VII – Faculty Adviser**

One faculty member appointed by the Dean of the School of Nursing will serve as Faculty Adviser to the Honor Council. The Faculty Adviser will sit in on every hearing. The faculty Adviser may ask questions and participate in discussions, but does not have a vote in the outcome. After the hearing, the Faculty Adviser will submit a written report to the Dean. At year end the Honor Council Officers and the Faculty Adviser may meet together to review and discuss the cases that have been decided that year.

**Article VIII – Violations**

The Honor Code at Vanderbilt specifically prohibits actions deemed as breaches of the mutual trust for which the honor system stands. Violations of provisions of the Honor Code are cause for disciplinary actions imposed by the Honor Council. The following are included as violations:
1. Giving or receiving unauthorized aid either orally, electronically, or in writing, such as cheating on an exercise, test, problem or examination submitted by a student to meet course requirements. Cheating includes the use of unauthorized aids (i.e., as crib sheets, the aid of student or another instructor on a take-home exam, technical resources.), copying from another student’s work, soliciting, or similar action contrary to the principles of academic honesty. It is the responsibility of the student to obtain clarification from faculty about authorized aid.

2. Plagiarism on an assigned paper, theme, report, care plan, SOAP notes or other material submitted to meeting course requirements. Plagiarism is defined as the act of incorporating into one’s own work the work of another without indicating that source. A full description of plagiarism is given in the Undergraduate Student Handbook.

3. Failure to report a known or suspected violation of the Code in the manner prescribed.

4. Use of texts or papers prepared by commercial or noncommercial agents and submitted as a student’s own work.

5. Submission of work prepared for another course without the specific prior authorization of the instructors in both courses.

6. Falsification of results of study and research.

7. Falsification of clinical log or other item related to clinical practice.

8. Provision of false information at an Honor Council hearing or to an Honor Council investigator in either verbal or written form.

Article IX – Hearing

Hearings will be conducted in a manner congruent with the procedures of the Vanderbilt University School of Nursing Honor Council as published in the Student Handbook.

A suspected violation of the Honor Code must be reported to the Honor Council immediately after the student or instructor become aware of the suspected violation. The appointed investigators will notify the accused of the charges within five (5) class or exam days following this report and that an investigation is being conducted. As a general policy, the Honor Council will proceed with the pre-hearing unless the preliminary investigation indicates clearly that no substantive basis for doing so exists. After the pre-hearing, the Chair and members of the Honor Council will meet to review the evidence and decide whether there is sufficient evidence to conduct a hearing.

A quorum shall exist when five of the representatives on Honor Council are in attendance at a meeting.

No person related to the accused by blood or marriage will be allowed to serve on the Hearing Committee. A member may also exclude himself from serving on the Hearing Committee for personal reasons.

Both the pre-hearing and the hearing will be conducted in privacy, and all members of the Honor Council will be required to preserve the confidentiality of the proceedings in all cases.
Within forty-eight (48) hours following the conclusion of a hearing, the secretary will inform in writing the accused, the person bringing the charge, the course instructor, the academic director, the Associate Dean and the Dean of the School of Nursing of the decision and the penalty, if any. The Dean will notify the Registrar of the School of Nursing of the decision.

Article X – Penalties

If the accused is found guilty, a penalty will be determined by the Honor Council consistent with the following: the flagrancy of the violation, the degree of premeditation, the truthfulness of the accused throughout the investigation and the hearing and any mitigating circumstances that may enter the case.

The specific penalty chosen is limited to one of the following alternatives:

1. Failure of the work involved. The work may not be repeated.

2. Failure in the course involved. A vote of two-thirds of the members of the Hearing Committee will be required to administer this penalty. The course may be repeated. However, course offerings will not be altered.

3. Suspension from the School of Nursing graduate program for a stated period not exceed two semesters from the end of the semester in which the student was convicted of the violation. For example, a student convicted of a violation in the spring of his or her first year in residence and suspended one semester would be eligible for return in the fall following a summer semester suspension; however, course offerings will not be altered to meet individual requirements. The Hearing Committee may use its own discretion in setting the dates of the suspension. A grade of F will be administered automatically to the student's record. The penalty of suspension requires a vote of two-thirds of the members of the Hearing Committee.

4. In the case of a student convicted of providing false information at an Honor Council hearing or to an Honor Council investigator in either verbal or written form, that student may be suspended for up to three semesters from the end of the semester in which he or she was convicted. A vote of two-thirds of the members of the Hearing Committee is required to impose this penalty. Under no circumstances can this penalty be suspended.

In rare circumstances, the panel may suspend the presumptive penalty; suspension of the penalty must be approved by a unanimous vote of panel members.

Article XI – Appeals

Appeals of decisions made by the Honor Council are referred to the University Appellate Review Board following the procedure in the Graduate Student Handbook.

Article XII – Amendments

Amendments to the Honor Constitution may be adopted by the approval of two-thirds of the members of the Honor Council.

Approved April 23, 1992
Revised May 19, 2005

Procedures of the Vanderbilt University School of Nursing Honor Council

Investigation

1. When an alleged violation of the Honor Code is reported to the Chair of the Honor Council, he or she will immediately appoint two investigators.

2. The investigators shall interview, without delay, the accuser, and later, persons other than the accused who might have been a part of, or witness to, the alleged violation. They will collect all available physical evidence. Having assembled their findings, they will prepare a statement of the charge against the accused.

3. The statement includes, in addition to the specific charge, an explanation of the possible consequences if the accused student is found guilty of a breach of the Vanderbilt Honor Code. This statement must be prepared in duplicate, one for the accused and one for the Honor Council’s files.

4. The investigators shall meet with the accused, explain that they are there on Honor Council business, present him or her with the written statement of charges, and give the accused a copy of the Honor System procedures set forth in the Student Handbook. The accused is required to respond to the investigators’ inquiries within a reasonable period of time, and the Honor Council may send a notice to the Registrar’s office to enter an Incomplete on the accused’s transcript, along with the notation “Honor Council investigation pending,” if the accused is not compliant or if the investigation or hearing will continue past the end of the semester. The accused will be informed at the meeting with the investigator of all the available evidence in the case and of the procedures that will be followed.

5. The investigators will ask the accused to sign the Statement of Charges indicating that he or she understands the charge, possible penalties if found guilty, and the procedures to be followed. Signing the Statement of Charges does not imply or acknowledge guilt.

6. The investigators will ask the accused to explain his or her own account of the events surrounding the alleged violation. The accused may choose not to make any statement at the time of the first meeting, but rather to defer making any statement until an agreed upon time prior to the hearing.

7. The investigators will inform the accused of his or her right to obtain material witnesses. The accused is required to notify the investigators of the witness(es) before the hearing has been scheduled so that the investigators may contact the witness(es) and prepare a statement for inclusion in the investigative report. No witness will be allowed to testify at the hearing unless he or she has previously given a statement to the investigators. The investigators will also inform the accused student of his or her right to obtain one character witness to testify at the hearing. In addition, the accused may have one faculty, student, or staff adviser, who may not have had formal legal training, present with him or her during the presentation of testimony, and who may speak with the accused, but who may not speak directly with Honor Council members on the hearing panel. An accused may obtain professional legal representation, advice, and counsel. However, an attorney may not participate in or be present during an Honor Council interview or hearing. The Honor Council is a student tribunal untrained in the law. An attorney representing an accused is encouraged to work directly with the Office of the General Counsel.

8. The investigators should explain the procedures of the hearing in full detail to each witness and the accused. They should explain to the accused the importance of honesty in the proceedings and inform him or her that he or she will be called on to enter a plea of guilt or innocence. The investigators will also inform each as to the place and time of the hearing; however, the accused student is responsible for arranging the attendance of his or her character witness. The hearing
should not be held earlier than seventy-two hours after the investigators initially have met with the accused unless an earlier time is agreed to by the accused.

9. The investigators are to arrange any details necessary for conducting the hearing, such as reserving rooms where the witnesses and the accused may be placed during the hearing.

10. The investigators will assemble the evidence and testimony in a concise, logical report. At least twenty-four hours before the hearing, the accused student will be presented with a copy of the investigators’ report so that he or she may comment at the hearing on any corrections or clarifications the accused student feels are necessary or appropriate.

11. The investigators will provide the investigative report to the Chair of the Honor Council, who will determine whether sufficient evidence exists to warrant a hearing by the Council.

**Pre-hearing**

A five-member hearing panel (consisting of the Chair and four members appointed by the Chair) will hear the evidence in the case. The hearing panel conducts a pre-hearing to determine whether there is sufficient evidence to justify conducting a hearing. As a general policy, The Honor Council will proceed with the hearing unless the preliminary investigation indicates clearly that no substantive basis for doing so exists. The accused student will be present during the pre-hearing; the accused student and the investigators will then leave the hearing room while the panel votes on whether to proceed.

1. Presentation of investigator’s report.
   
   a. Investigators are sworn in by the Chair.

   b. Evidence is presented: the interviews with witnesses are reported briefly and impartially; the material evidence is presented and explained without opinion.

   c. The investigators read the statement of charges issued to the accused and any statement written by the accused.

   d. The Honor Council may question the investigators. At no time do the investigators express their opinion(s) concerning the guilt or innocence of the accused.

2. Determination whether to proceed to hearing. By simple majority vote, the Honor Council decides whether or not there is sufficient evidence to conduct a hearing.

**Hearing**

1. Testimony. The accused student is allowed to be present during the presentation of all testimony. If the accuser and witnesses are to testify in person (as opposed to through written documents), they will appear separately and await their appearances alone. When called, each (with the exception of the character witness) is sworn in by the Chair.

   a. Accuser. If the accuser testifies in person, the Chair will invite a general account of the events in question. Then the Honor Council may direct its questions to the accuser. The investigators may question the accuser, waiting until the Honor Council has concluded its questioning, to clarify points that may have been obscured. In the case of the accuser’s absence, the Honor Council will proceed to the testimony of the witness(es) and/or the accused student.

   b. Material Witnesses. First, the Chair invites a general account of the events in question. Then the Honor Council may direct its questions to the witness. The investigators may question material witnesses, waiting until the Honor Council has concluded its questioning, to clarify points that may have been obscured.
c. Character Witness. One character witness may provide a statement concerning the background of the accused. A character witness is not allowed to testify or express an opinion concerning the alleged offense. Discretion will be exercised to avoid questions that a character witness is not allowed to answer. If a character witness is not able to be present, he/she may submit a one page written document concerning background of the accused.

d. Accused Student. The Chair presents to the accused the charges and asks if he or she is familiar with the charges, the evidence, and the possible penalties if found guilty. The accused student enters his or her plea of guilt or innocence. The Chair asks the accused to state his or her account of the events in question. At this time, discrepancies in testimony, contradictions, and specific charges are brought forth. The Chair should detail the facts and charges in light of the testimony that has been introduced in support of the charges. The investigators may question the accused, waiting until the Honor Council has concluded its questioning, to clarify points that may have been obscured.

2. Recall. Witnesses may be recalled if the Honor Council so desires.

3. Deliberations Regarding Guilt. When the Honor Council is satisfied that all pertinent testimony has been received, the accused student, the student adviser, and the investigators leave the hearing room so that the panel may deliberate. The panel will proceed to discuss and decide the question of guilt or innocence. The proof that a person is guilty of a charge must be clear and convincing to the Honor Council. A simple majority must vote “guilty” to find the accused guilty. Investigators do not vote.

4. Deliberations Regarding Penalty. If the accused is found guilty, the Honor Council determines a fitting penalty based upon (a) the flagrancy of the violation, (b) premeditation involved in the offense, (c) the truthfulness of the accused throughout the investigation and the hearing, and (d) whether the accused intended to violate the Honor Code, if relevant. The first three factors may be ranked on a scale of low, medium, or high. The intent to gain an unfair advantage is not ranked, but only determined to be present or absent.

When asserting that a lesser penalty is appropriate due to lack of intent to gain an unfair advantage, the student will bear the burden of demonstrating that the violation of the Code was not intentional. The panel will take into account the circumstances surrounding the incident and whether they are consistent with the student’s testimony claiming lack of intent.

When the absence of intent is based on ignorance of the applicable rules or standards, such as a lack of understanding of plagiarism or citation rules or the student’s failure to obtain a clear definition of the application of the Honor Code from the professor, the panel should also consider the degree of fault on the part of the student when determining the appropriate sanction. If the student’s ignorance was unreasonable, a penalty lower than the presumptive sanction should not be approved.

The assignment of a penalty must be approved by a vote of the panel members. In rare circumstances, the panel may suspend the presumptive penalty; suspension of the penalty must be approved by a unanimous vote of panel members. The specific penalty chosen is limited to one of the following alternatives: (1) failure of the work involved. The work may not be repeated, (2) failure in the course involved. A vote of two-thirds of the members of the Hearing Committee will be required to administer this penalty. The course may be repeated. However, course offerings will not be altered, (3) suspension from the School of Nursing graduate program for a stated period not exceed two semesters from the end of the semester in which the student was convicted of the violation. For example, a student convicted of a violation in the spring of his or her first year in residence and suspended one semester would be eligible for return in the fall following a summer semester suspension; however, course offerings will not be altered to meet individual requirements. The Hearing Committee may use its own discretion in setting the dates of the suspension. A grade
of F will be administered automatically to the student’s record. The penalty of suspension requires
a vote of two-thirds of the members of the Hearing Committee, (4) in the case of a student
convicted of providing false information at an Honor Council hearing or to an Honor Council
investigator in either verbal or written form that student may be suspended for up to three
semesters from the end of the semester in which he or she was convicted. A vote of two-thirds of
the members of the Hearing Committee is required to impose this penalty. Under no
circumstances can this penalty be suspended.

If, at the discretion of the Honor Council Chair, mitigating circumstances exist with regard to the
commission of the violation in question, then the Chair may introduce those circumstances to be
considered in the discussion of penalty. Such circumstances may not relate to the possible
ramifications of the panel’s decision.

5. Decision. The accused, student adviser, and investigators are brought back into the hearing
room for presentation of the Honor Council’s decision or notified by telephone if that is the
preference of the accused. After stating the decision, the Chair (and others) may talk with the
accused. At this time it should also be explained to the accused that he or she has the right of
appeal.

After the Hearing

1. At the conclusion of the hearing, the Honor Council Chair will gather all the material evidence,
investigative reports, notes, and other records of the investigation and hearing and place them on
file in the Office of Vanderbilt University School of Nursing Faculty Adviser.

2. If the accused is found guilty or pleads guilty, written notice of the decision is sent to the
following parties: (a) the accused, (b) the dean of the school in which he or she is enrolled, (c) the
registrar of the school in which he or she is enrolled, (d) the University registrar and assistant
registrar, and (e) other relevant University administrators when suspension or expulsion from the
University is involved. A copy of the notice also will be placed in the Honor Council files.

3. A summary of the proceedings will then be prepared by the Secretary of the Honor Council or
his/her designee.

4. The accused student may file an appeal from the hearing decision with the Honor Council
adviser or the adviser’s designee, but must do so within ten class or exam days of the hearing date
or within two calendar weeks if school is not in session for ten days after notification. Requests for
extensions of time must be submitted to the Honor Council Adviser prior to the end of this time
period. The appeal petition will be sent to the Chair of the Appellate Review Board who will
determine if there are sufficient grounds for an appeal based on the criteria delimited in the appeal
procedures. If the Chair affirms that there is sufficient reason for an appeal, the student’s petition
is sent to the Honor Council Chair who will draft a response to the student’s appeal upon receipt of
the appeal from the Honor Council adviser’s office. This response will be sent to the accused
student for review and additional written comment or reply if he or she wishes. The appeal, the
Honor Council response, the student’s reply or additional comments, and copies of all appropriate
evidence are then sent to the Appellate Review Board. (For more information on grounds for appeal
and the procedures of the Appellate Review Board, see the discussion of “Appeals” in Chapter 7 of
the Undergraduate Student Handbook.)

5. Records of Honor Council proceedings and investigations are maintained by the Vanderbilt
University School of Nursing Honor Council Adviser. Records of convictions and penalties will not
be released outside the University absent a written release from the convicted student or unless
otherwise required by law in accordance with the Family Education Rights and Privacy Act
(FERPA). However, students should be aware that they may be required to sign such a waiver when
applying to graduate or professional schools or in the course of any governmental background
check. If a student receives failure in the course as a sanction, the student may retake the course
(in accordance with the rules of the student’s school or college) and replace the failure in his or her
Withdrawal from the University Before Hearing

If a student who has been reported for a suspected violation of the Honor Code withdraws from the University before a hearing has been conducted, that fact will be recorded by the Honor Council. A letter will be sent to the accused stating that he or she is suspected of an Honor Code violation, that an investigation has been or will be conducted, and that a hearing may be held.

The accused may respond in one of three ways: return to the campus for a hearing, waive the right to give testimony personally, thereby acknowledging that the hearing may proceed in his or her absence, or waive the right to appear and send a written, signed statement to be presented on his or her behalf at the hearing. Failure by the accused to respond will be considered a waiver of the right to appear.

During the time prior to the hearing, a notation will be placed on the transcript of the accused stating that an Honor Council case is pending. A letter will also be sent to the University registrar and to the School of Nursing registrar indicating that an Honor Council case is pending. If the accused attempts to re-enroll before the case is heard, the registrar will notify the Chair of the Honor Council. The case must be resolved before the accused may re-enroll.

If a case cannot be heard before the end of the grading period, the instructor will submit a grade of “I” until the Honor Council can act on the matter. A notation will be placed on the transcript of the accused stating that an Honor Council case is pending.

Discretion and Disqualification of Council Members

1. During the investigation and throughout the entire course of the Honor Council’s proceedings, Honor Council members must express no opinion concerning the offense to witnesses, the accused, or members of the community at large.

2. Council members and investigators may not participate in cases where their relationship with the accused, the accuser, or a material witness raises a reasonable inference of prejudice on their part. Examples of such relationships include close friendship, kinship, Greek, club or other organizational affiliation, or evidence of past prejudice.

3. Council members are not allowed to serve as character witnesses in any cases.

CODE FOR NURSES

The School of Nursing adheres to the American Nurses Association Code for Nurses which reads as follows:

PREAMBLE

The Code for Nurses is based on belief about the nature of individuals, nursing, health, and
society. Recipients and providers of nursing services are viewed as individuals and groups who possess basic rights and responsibilities, and whose values and circumstances command respect at all times. Nursing encompasses the promotion and restoration of health, the prevention of illness, and the alleviation of suffering. The statements of the Code and their interpretation provide guidance for conduct and relationships in carrying out nursing responsibilities consistent with the ethical obligations of the profession and quality in nursing care.

1. The nurse, in all professional relationships, practices with compassion and respect for the inherent dignity, worth, and uniqueness of every individual, unrestricted by considerations of social or economic status, personal attributes, or the nature of health problems.

2. The nurse’s primary commitment is to the patient, whether an individual, family, group, or community.

3. The nurse promotes, advocates for, and strives to protect the health, safety, and rights of the patient.

4. The nurse is responsible and accountable for individual nursing practice and determines the appropriate delegation of tasks consistent with the nurse’s obligation to provide optimum patient care.

5. The nurse owes the same duties to self as to others, including the responsibility to preserve integrity and safety, to maintain competence, and to continue personal and professional growth.

6. The nurse participates in establishing, maintaining, and improving healthcare environments and conditions of employment conducive to the provision of quality health care and consistent with the values of the profession through individual and collective action.

7. The nurse participates in the advancement of the profession through contributions to practice, education, administration, and knowledge development.

8. The nurse collaborates with other health professionals and the public in promoting community, national, and international efforts to meet health needs.

9. The profession of nursing, as represented by associations and their members, is responsible for articulating nursing values, for maintaining the integrity of the profession and its practice, and for shaping social policy.

CONFIDENTIALITY AND PRIVACY OF PATIENT INFORMATION

Trust and confidentiality are at the heart of the caregiver/patient relationship. The ANA Code for Nurses requires students to strive to protect the rights of patients — and one of their essential rights is the right to privacy and to have information about them kept confidential. In addition to professional codes, all health care organization will have policies regarding confidentiality that reflect ethical standards, as well as state and federal laws. Recent federal regulations are bringing a new measure of uniformity to confidentiality practices across the healthcare industry.

In 1996, Congress passed the Health Insurance Portability and Accountability Act (HIPAA). Portions of the legislation have generated privacy regulations that will significantly impact all types of healthcare providers. These regulations represent the first comprehensive medical privacy standards established at the federal level. Generally, they protect patient confidentiality and focus
on the use and disclosure of individually identifiable health information. The new rules increase
consumer control of their medical records, restrict the use and disclosure of patient information,
establish accountability for the protection of patient data by providers and their business partners,
set forth sanctions for noncompliance, and mandate an administrative infrastructure to implement
and monitor these policies. A summary of these rules can be found at

The HIPAA regulations, and Vanderbilt University Medical Center’s (VUMC) core confidentiality
policies (Hospital Operations Policy 10-17 and 10-52) protect all individually identifiable health in
any form (paper, verbal, electronic). Students are therefore required to protect the confidentiality
of any information related to the provision of care that can be linked to a patient (clinical records,
billing records, dates of service, etc.). A key principle mandated by HIPAA and VUMC policy is that
clinicians and staff should only use the minimum amount of patient information that is necessary
to carry out their duties. Essentially, all patient information should only be accessed by authorized
individuals, and be used or disclosed on a “need to know” basis.

VUMC has refined all of its policies and procedures regarding patient confidentiality to reflect the
core concepts and requirements of the HIPAA privacy regulations. A complete list of VUMC privacy
policies can be found at the HIPAA Privacy web site:

Violations of these policies while training or practicing at VUMC will result in disciplinary action
(see VUMC Hospital Operations Policy 10-17). Additionally, under HIPAA, individuals can incur
federal fines up to $250,000 and be imprisoned up to 10 years for misusing protected patient
information for commercial advantage or malicious harm.

HIPAA privacy requirements will not significantly alter how patient information can be used or
disclosed for treatment. The regulations also allow the use of patient information for training
purposes. Any other uses, however, particularly research, may require patient authorization or
other approval protocols. If you have any questions regarding appropriate uses and disclosures of
patient information, you can contact the VUMC Privacy Office at (615) 936-3594. Additional
information on the HIPAA regulations can be found at VUMC’s HIPAA web site:
http://www.mc.vanderbilt.edu/hipaa or by calling the Privacy Office at (615) 936-3594.

**POLICY ON EXPOSURE TO BLOOD AND BODY FLUIDS - WHAT YOU SHOULD DO:**

If a student has an exposure to blood or body fluids (i.e. a needle stick, splash to eyes or mouth, or
contact with non-intact skin) during a clinical rotation, these are the steps that should be taken:

**+ STEP 1**

*Immediate First Aid at the Work Site*

- Wash the exposed area immediately with soap and water.
- Flush eyes or mouth with tap water for 15 minutes.
- Remove contacts immediately if eyes are exposed.
- Obtain the name, medical record number, and location of the patient source of the
  exposure. You will give this important information to the Employee Health
  Service practitioner at the clinical agency.
- Contact your clinical instructor/supervisor immediately.
STEP 2

Important Notification and Documentation Procedure

ON CAMPUS:

- Report, in person, immediately to the Occupational Health Clinic (OHC) Monday-Friday, 7:30 am - 5:30 pm, 6th Floor of the Medical Arts Building (MAB).
- When the Occupational Health Clinic is closed, report immediately to the Emergency Department for the initial assessment and treatment. All exposed students will be referred to the OHC for further evaluation and/or treatment on the next OHC workday. No appointment is necessary. **It is imperative that the Occupational Health Clinic is also notified by the exposed student as soon as possible, by calling (615) 936-0955 to report the exposure.**
- Notify your clinical faculty member who must send a First Report of Injury Form to the Claims/Risk Management Office within 48 hours.

OFF CAMPUS:

- Should an exposure occur off campus, immediately complete Step 1. Follow the agency/facility protocol for OSHA bloodborne pathogen emergency treatment.
- Within 2 hours of exposure, contact the Vanderbilt Occupational Health Clinic at (615) 936-0955 (7:30 am - 5:30 pm Monday-Friday) for further instructions and follow-up care. If after hours, contact Vanderbilt University Medical Center Emergency Room at (615) 322-3391.
- Notify your clinical supervisor and clinical course coordinator immediately.

STEP 3

Assessment and Treatment of Your Exposure

The Occupational Health Service and/or the Emergency Department will...

- Document and assess your exposure.
  Administer Immune Globulin, Hepatitis B vaccine, Tetanus booster, Hepatitis B Immune Globulin and/or AZT (Zidovudine) if appropriate.
  Order screening tests for Hepatitis B, HIV, or Hepatitis C antibodies, or other test as appropriate.
- Order screening tests on the source for Hepatitis B, HIV and, if appropriate, other pathogens.
- Follow-up on all lab studies and advise you of the results and the need for any further treatment. Students will follow all of Step 3. Students are not eligible for worker’s compensation.

OCCUPATIONAL EXPOSURE ASSESSMENT FEE

All part-time and full-time students pay an occupational exposure fee of $40 annually. Any needed tests, medications, and follow-up care from any blood and body fluid exposure will be provided by VUMC Occupational Health Clinic at no charge to the student. If charges are incurred from a hospital other than Vanderbilt, the student should bring the invoice(s) to the Assistant Dean of Student Affairs for payment. The student should not pay the invoices directly.
SOCIAL MEDIA POLICY

POLICY:

Online social media allow VUSN students to engage in professional and personal conversations. The goal of this policy is to protect both VUSN students as well as the School of Nursing.

The policy represents a set of suggested standards of conduct when students identify themselves with VUSN/VUMC and is **not** established as a set of formalized rules that will be enforced with punitive consequences. The one exception is any violation of patient privacy protected under regulatory or federal guidelines such as the Health Insurance Portability and Accountability Act (HIPAA) of 1996 (P.L.104-191).

Students are personally responsible for the content they publish on blogs, wikis, social networks, forum boards, or any other form of user-generated media. Remember that all content contributed on all platforms becomes immediately searchable and can be immediately shared. This content immediately leaves the contributing individual’s control forever and may be traced back to the individual after long periods of time.

VUMC offers support of institutional communication goals, as well as provides social computing guidelines for VUMC faculty and staff engaging in online discourse and identifying themselves with VUMC.

This policy is **not** intended for internet activities that do not associate or identify a student with VUSN, do not use Vanderbilt email addresses, do not discuss VUMC and are purely about personal matters.

PURPOSE:

- To provide guidelines outlining how Vanderbilt University School of Nursing students support institutional communication goals and social computing guidelines

DEFINITIONS:

Social Media Platforms – Technology tools and online spaces for integrating and sharing user-generated content in order to engage constituencies in conversations and allow them to participate in content and community creation. Examples are Facebook, Twitter, LinkedIn and YouTube.

PROCEDURE:

I. SPECIFIC INFORMATION

A. Official Institutional Web 2.0 Communications:

1. Because of the emerging nature of social media platforms these guidelines do not attempt to name every current and emerging platform. Rather, they apply to those cited and any other online platform available and emerging including social networking sites and sites
with user-generated content. Examples include but are not limited to the following:

- YouTube
- Facebook
- iTunes
- LinkedIn
- Twitter
- Blogs

B. Guidelines for Online Professional or Personal Activity:

These guidelines apply to VUSN students who identify themselves with VUSN and/or use their Vanderbilt email address in social media venues such as professional society blogs, LinkedIn, Facebook, etc. for deliberate professional engagement or casual conversation.

1. Follow the same VUMC Credo behavior, HIPAA, Conflict of Interest Policy, Privacy and general civil behavior guidelines cited in this policy including respecting copyrights and disclosures, and not revealing proprietary financial, intellectual property, patient care or similar sensitive or private content inclusive of the posting of client pictures.
   - **Protect confidential information.** While you are posting to your friends, many of the sites are open to anyone browsing or searching. Be thoughtful about what you publish. Do not disclose or use confidential information or that of any other person or agency. Respect HIPAA regulations. Do not post any information about your clinical rotations or clients in any online forum or webpage. A good rule of thumb is that if you wouldn’t want what you posted on a social media site to be on the front page of tomorrow’s newspaper, credited to you, then don’t post it at all.)

2. If individual identifies themselves as a VUSN student in any online forum and/or use their Vanderbilt email address, student needs to ensure that it is clear that they are not speaking for VUSN, and what they say is representative of their individual personal views and opinions and not necessarily the views and opinions of VUSN.

3. VUSN Students are thoughtful about how they present themselves as in online networks. By virtue of self identifying as part of VUSN in such a network, students connect themselves to, and reflect upon, VUSN faculty, staff and even patients and donors.

   - **Be thoughtful about how you present yourself.** VUSN students are preparing for a career providing services to the public. VUSN and future employers hold you to a high standard of behavior. By identifying yourself as a VUSN student though postings and personal web pages, you are connected to your colleagues, clinical agencies, and even clients/patients. Ensure that content associated with you is consistent with your professional goals. If you identify yourself as a VUSN student, ensure your profile and related content is consistent with how you wish to present yourself to colleagues, clients, and potential employers. Remember that all content contributed on all platforms becomes immediately searchable and can be immediately shared with everyone. This content immediately leaves the contributing individual students control forever.
Respect your audience and your coworkers. VUSN is an organization whose students, faculty, and clients have a diverse set of customs, values, and points of view. Don’t be afraid to be yourself, but respect others. This includes not only the obvious (no ethnic slurs, personal insults, obscenity, pornographic images etc.) but also proper consideration of privacy and of topics that may be considered objectionable or inflammatory—such as politics and religion. Remember, what may be humorous to some, may be offensive to others. Civility is an important component of on-line communication as well.

4. If someone or some group offers to pay a student for participating in an online forum in their VUSN student role, offers advertising for pay and/or for endorsement, this could constitute conflict of interest and VUMC policies and guidelines apply.

5. If someone from the media or press contacts students staff about posts made in online forums that relates to VUSN/VUMC in any way, students should alert their Program Director and contact VUMC News & Communications before responding.

6. At the end of each course, students are provided an avenue to evaluate course materials/faculty. Therefore, social media vehicles are considered inappropriate locations to provide this feedback.

Vanderbilt University Staff Conflict of Interest and Commitment Policy
VANDERBILT UNIVERSITY SCHOOL OF NURSING: OTHER POLICIES

STUDENT DRESS CODE

General Practice Requirements
The student ID badge is to have first and last names (no nicknames) and no titles. Students are expected to be well groomed and in neat, clean attire at all times. Body piercing jewelry is to be worn in the earlobes only; visible tattoos are to be covered. Clothes should fit properly so as to be professional and appropriate. If at an institution outside VUMC, the student is to follow the dress code for that facility.

Classroom Dress Guideline
The intent is for the student’s classroom dress to be comfortable, while the type and fit of clothing reflect mindfulness and respect of community guest speakers, faculty and peers. The specific classroom dress code is at the discretion of the individual faculty in creating a professional environment.

ALCOHOL, CONTROLLED SUBSTANCE, and SMOKING POLICY

Students are not allowed to attend class or clinical practice under the influence of alcohol or controlled substances. Students suspected of using such substances will be asked to submit to voluntary urine screening as a condition of progression. Additional information on student impairment may be found in the University Student Handbook on policies concerning alcohol and controlled substances at http://www.vanderbilt.edu/student_handbook/. The Medical Center of Vanderbilt University does not allow smoking on any of its property. As part of the Medical Center, the School of Nursing adheres to this policy.

CHILDREN IN THE SCHOOL

Children are restricted from the School of Nursing except in unusual circumstances. Children should not accompany faculty, staff or students to the School unless under exceptional or emergency circumstances. Any child brought to the School must be supervised at all times, by a parent or guardian. If a child is disruptive, the responsible parent/guardian will be asked to remove the child from the building. Children are not permitted in the Media Center, skills lab, or computer labs. Students must obtain permission from the Course Coordinator, appropriate faculty, or class lecturer prior to bringing children to class. Frequent violators of this policy will be subject to disciplinary action.

INCLEMENT WEATHER POLICY FOR THE SCHOOL OF NURSING

To provide uniformity for students, faculty and staff regarding the cancellation of classes due to inclement weather conditions or other adverse events impacting normal operations of the School of Nursing.
KEY DEFINITIONS:

A) **Inclement Weather Event**: The existence of hazardous weather conditions that pose a threat to life or property.

B) **Yellow Alert Standby for Inclement Weather Announcement**: Standby, prepare for inclement weather.

C) **Orange Alert Inclement Weather Announcement**: Inclement Weather is in the area and has the potential to disrupt normal medical center operations. The VUMC Emergency Operations Plan is activated and an Emergency Operations Center (EOC) is opened to handle the event.

D) **Weather Warning**: A warning is issued by the National Weather Service when a hazardous weather event is occurring, imminent, or likely. A warning means weather conditions pose a threat to life or property. People in the path of the storm need to take protective action.

E) **Weather Watch**: A watch is used when the risk of hazardous weather has increased significantly, but its occurrence, location, or timing is still uncertain. It is intended to provide enough lead-time so those who need to set their plans in motion can do so. A watch means hazardous weather is possible. People should have a plan of action in case a storm threatens and they should listen for later information and possible warnings.

F) **Weather Advisory**: An advisory is issued by the National Weather Service when hazardous weather is occurring, imminent or likely. Advisories are for less serious conditions than warnings that cause significant inconvenience and if caution is not exercised, could lead to situations that may threaten life or property.

G) **Thunderstorm Watch**: An advisory issued by the National Weather Service when conditions are favorable for the development or approach of severe thunderstorms on the Vanderbilt campus.

H) **Thunderstorm Warning**: An advisory issued by the National Weather Service when a severe thunderstorm (a storm with winds in excess of 58 miles per hour or with ¾" or larger hail, or both) is indicated on radar.

FACULTY/STAFF COMMUNICATIONS:

During Inclement Weather event or other adverse events impacting normal operations faculty/staff are updated via the following communication modes:

1. Overhead Announcements
2. Medical Center Communication email system
3. Emails from the Dean/Senior Associate Deans

PROCEDURE:

**Cancellation/Delay of Start Time for Classes:**

1. The decision to cancel or delay the start time for a class will be made by the faculty member responsible for the class.

Canceled classes will be rescheduled at the discretion of the faculty member responsible for the course.
Student Notification Instructions:

OAK (Blackboard):
Faculty will communicate instructions and/or cancellation of classes by:
1. Creating an Announcement posting in OAK (Blackboard)
2. Sending an email to students through the email function in OAK.

In the event of inclement weather, students are required to check OAK (Blackboard) site of each of the classes they are enrolled.

The faculty member is also responsible for notifying the following individuals:
1. Senior Associate Dean for Academics (linda.norman@vanderbilt.edu)
2. Assistant Dean for Student Affairs (sarah.ramsey@vanderbilt.edu)
3. Executive Secretary (reception area of Frist Hall) – for notification of student who physically arrive for classes (ellen.smogur@vanderbilt.edu)
4. Technical Specialist- in the event class is being videotaped and technical support needs to be cancelled. (clay.sturgeon@vanderbilt.edu)

In the event the OAK (Blackboard) system is not operational, instructions regarding the cancellation of classes will be posted by the course instructors through use of the Vanderbilt University voicemail system

VUSN: LICENSURE AND CERTIFICATION

Students must provide a copy of an unencumbered registered nurse license in the state(s) where the student will be doing clinical training (if applicable). In addition, DNP students must have advanced practice registered nurse (APRN) designation in their home state or equivalent and national board certification in their area of specialty as appropriate.

VANDERBILT UNIVERSITY SCHOOL OF NURSING: PROGRAMS OFFERED

MISSION STATEMENT and SHORT HISTORY

As one of the University’s professional schools, the mission of the School of Nursing is to develop, structure, and communicate the discipline of nursing by its commitment to the conduct of inquiry, research, scholarship, education of students, and the practice of professional nursing.

The Vanderbilt University School of Nursing opened in 1909, offering a three-year diploma program in nursing. The first Bachelor of Science degree was awarded in 1936, and first Masters degree in nursing in 1958. The School of Nursing is one of the nation’s first nursing programs to incorporate nursing into a liberal arts degree. Having phased out its undergraduate degree program in 1989, the School now offers a curriculum that enables pre-speciality students from diverse backgrounds to move into the master’s level study and prepare for careers in advanced practice nursing. Currently, “U.S. News and World Report” ranks the Vanderbilt School of Nursing in the Top 20 Schools of Nursing in the country.
ACCREDITATION

The Vanderbilt University School of Nursing is approved by the Tennessee Board of Nursing. It was a charter member of the Association of Collegiate Schools of Nursing, which later was incorporated into the National League for Nursing (NLN). The MSN program is accredited by the National League for Nursing Accrediting Commission (NLNAC), 3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326, Phone (404) 975-5000. The DNP program is a candidate for accreditation by the National League for Nursing Accrediting Commission.

PHILOSOPHY OF THE VANDERBILT UNIVERSITY SCHOOL OF NURSING.

The School of Nursing is committed to freedom on inquiry into the national, social, and human orders of existence, and to stating the conclusions of that inquiry. The School of Nursing fosters excellence in both scholarship and service; a liberal education must concern the whole person. The curriculum requires both liberal arts and professional courses.

The central concepts of our profession are person, environment, health, and nursing. These four concepts interact and serve as the basis for the practice of nursing.

Each person is unique, with intrinsic worth and dignity. Human beings are whole persons, with interacting and interdependent physical structures, minds, and spirits. The environment consists of all conditions, circumstances, and influences that exist outside the boundaries of one’s social system. An intimate relationship exists between the constantly changing environment and the person. The environment in which we live determines, to a degree, lifestyle and state of health. Development of the individual occurs throughout life within a pluralistic and culturally diverse society.

Health is a dynamic state of being in which the developmental and behavioral potential of an individual is realized to the fullest extent possible. Individuals have the right to pursue that level of health perceived by them to be optimal, taking into account their social and cultural definition of health. The level of health that individuals can attain is directly influenced by the level of health of the families and communities of which they are a part.

Nursing is a professional discipline that seeks to understand phenomena and predict circumstances that affect the health of individuals, families, groups, and communities. The discipline of nursing encompasses science, ethics, politics, and the heritage of nursing. The central focus of the discipline is the diagnosis and treatment of individuals, families, and groups as they respond to actual or potential health problems. The practice of nursing is an art and a science, used to help individuals improve their health potential.

The profession of nursing builds on a liberal education, and a university provides the best possible environment for this kind of education. A liberal education includes fine arts and humanities as well as social, biological, and physical sciences. The synthesis of knowledge from these disciplines, as well as from nursing, will enhance the ability of nurses to understand self, relationships with others, the nature of communities, other cultures, the physical world, current issues, and human values.

The study of diverse disciplines contributes to the ability to think analytically, reason logically, and communicate effectively. Students are expected to continue growing in their intellectual and communication skills, using their liberal education to deepen their understanding of nursing and health. University-wide interdisciplinary activities are actively sought for the intellectual exchange and stimulation they provide.
The purpose of the graduate education in nursing is to prepare students for advanced practice roles, including nurse midwife, nurse practitioner, and nurse manager. At the master’s level, graduate study provides the opportunity to in-depth theoretical knowledge, the basis for advanced clinical practice. Students acquire research skills and a deeper knowledge of their nursing specialty.

Graduate education provides students the knowledge and skills for planning and initiating change in a health care system. For potential members of interdisciplinary health care management teams, the focus is on advanced patient care skills that will provide leadership and will influence nursing organizations within a variety of health care settings. It is acknowledged that preparation for the nurse educator role requires education beyond the master’s degree.

The first professional degree in nursing at Vanderbilt is specialty-related and offered on the graduate level. The increase in knowledge and scope of nursing responsibilities, as well as changes in roles, functions, and practice settings, requires a post-baccalaureate nursing education that is built on a rich undergraduate liberal education base and a baccalaureate in nursing or its equivalent.

The nursing program leading to the M.S.N. at Vanderbilt constitutes an arena for excellence in nursing practice, as well as a forum for discussion and analysis of issues that affect health care, consumers, the nursing profession, and society. The program is based on a variety of cognitive styles, life experiences, and professional backgrounds, and its flexibility allows all students to achieve the same goals through different options.

Practice doctorate education moves the student to critically appraise concepts that address the role of advanced practice nurses caring for multicultural populations across the life span with unique health care needs and within the context of a complex health care environment. The curriculum builds on the student’s advanced practice expertise – clinical and/or systems, while enhancing leadership and inquiry skills. The process of inquiry facilitates innovative thinking and the ability to appraise research and other evidence to enhance nursing practice and the delivery of patient care. Moreover, D.N.P. education provides students with the knowledge and skills for planning and initiating change within a health care system as members and leaders of inter-professional teams, recognizing the current state of the evidence and societal needs.

D.N.P. students and faculty have diverse professional and cultural backgrounds, which strengthens the academic environment. Creative thinking is encouraged within the classroom and via technology-enhanced communications. Likewise, a spirit of inquiry evolves through faculty-student mentoring experiences.

DOCTORAL STUDIES

The DNP (Doctorate in Nursing Practice): The DNP program in the School of Nursing prepares practice scholars as leaders in translating evidence-based knowledge into clinical practice, improving health care outcomes, and strengthening nursing management and education within public and private organizations. Successful applicants to the program are those whose previous academic performance, written goal and practice inquiry statements and letters of recommendation match the School's philosophy and faculty expertise. Nurses prepared in practice doctoral programs have a blend of clinical, organizational, economic, and leadership skills to enable them to critique nursing and other clinical scientific findings and design programs of care delivery that are locally acceptable, economically feasible, and have significant impact on health care outcomes. Dr. Terri Donaldson is the director of the DNP program.
The PhD in Nursing Science offered by the Graduate School: This program is designed for individuals who hold graduate degrees in nursing and wish to pursue scientific careers in nursing. Areas of concentration in the doctoral program include the study of individual, family, and community responses to health and illness across the life span and the outcomes of care delivery practice. These areas of study are reflective of the research interests and expertise of the School of Nursing faculty members and the resources available in the Medical Center and the University. Drs. Ann Minnick and Linda Norman are the co-directors of the PhD program.

VANDERBILT UNIVERSITY SCHOOL OF NURSING: CALENDAR

The official calendar of the School of Nursing is printed at the front of the VUMC Bulletin. Students are expected to be familiar with the dates and to conform to them. It is the responsibility of the student to keep informed of any event or announcement applicable to the School of Nursing. Failure to know of a required event is not an excuse for non-attendance.

VANDERBILT UNIVERSITY SCHOOL OF NURSING: BUILDINGS

MARY RAGLAND GODCHAUX HALL

Godchaux Hall (built in 1925) and the Godchaux Annex (built in 1971) currently house faculty and staff offices, conference space, research offices, classrooms, and lab space used by the School of Nursing.

PATRICIA CHAMPION FRIST HALL

In 1998 the 20,259-square-foot Patricia Champion Frist building, located adjacent to Godchaux Hall, was completed. This building houses the Frist Nursing Informatics Center, a multi-media classroom with installed networking for seventy-five students, a health-assessment/multi-purpose classroom, a student lounge, a reception area, and fifty faculty offices. Two of the larger classrooms have installed infrastructure capable of video streaming live lectures. Godchaux Hall, the Annex, and Frist Hall are joined by a common Atrium. Thus, the three buildings of the School of Nursing and the Atrium form a self-contained, cohesive instructional and social complex.

The Frist Nursing Informatics Center (FNIC). The FNIC student computer labs, located in Patricia Champion Frist Hall, are equipped with twenty-seven Dell Precision T1500 computers (Intel i5-750 2.66GHz processor with 2 GB of RAM and a 250GB hard drive loaded with Windows XP, a 48X CD-RW/DVD-RW drive, and USB access for a personal thumb drive), two scanners, and three laser printers. An additional eight units are installed in a Testing Lab to accommodate the growth of proctored Web-based testing in a quiet environment. All computers are placed on a three-year rotation cycle. For some courses, students schedule testing dates in order to suit individual needs within a range of dates allowed by course faculty.
A full range of software is available for document preparation; however, fewer tools are available on computers dedicated to testing. Instructional software is also available over the network or via CD/DVDs from the media library. Faculty and students use a Web-based course management system called OAK (Online Access to Knowledge) which is built on Blackboard, for most course communication, group activities, and the sharing of course resources. In addition, two-way synchronous audio and graphic collaboration is available using a Web conferencing system called Centra; and two-way, multi-point IP-based video collaboration is available using a system called Scopia. Experts in graphics, interactive educational design, and information technology are available through the FNIC. Consultation and troubleshooting activities include assistance with design and development of instructional strategies, development of specialized interactive computer-based programs and Web pages, design and maintenance of databases, design and development of graphics and instructional materials, video production, and audiovisual editing services. The FNIC implements and maintains quality assurance for School of Nursing Web pages and printed materials with assistance from designated departmental staff and program faculty.

Most Faculty offices are located on the 2nd and 3rd floors of Frist Hall, and the 2nd through 6th floors of Godchaux Hall.

**ROOM RESERVATIONS**

Students may reserve space for meetings in Godchaux Hall, the Annex, and Frist Hall by contacting Ellen Smogur via e-mail at ellen.smogur@vanderbilt.edu or at (615) 322-4400.

**CENTER FOR RESEARCH DEVELOPMENT AND SCHOLARSHIP (CRDS)**

Housed on the fourth floor of Godchaux Hall, the CRDS provides research consultation, support, and resources for scholarly and research projects. CRDS assists with grant proposal development, Institutional Review Board application, paper and poster presentation, database management, instrument development, use of computers, literature searches, reference retrieval, and manuscript preparation. CRDS resources are available to all School of Nursing investigators.
WHERE YOUR CLASSROOMS ARE LOCATED

The majority of School of Nursing classes are in the following classrooms:

Godchaux Hall Nursing Annex (NA): 155, 161, 165, 167(all large lecture halls), 160, 162, 164, 166 (small classrooms). Godchaux Hall room 317, and conference rooms 201, 401, 501 and 601 are also used for classroom seminars.

Frist Hall (FH): 140, 144, 250
(Note: Room 144 is set up as a Health Assessment Lab during the Fall semester and as a classroom in the Spring and Summer semesters.)

VENDING MACHINES

Vending machines are located in the lobby alcove of the Nursing Annex.

FRIST NURSING INFORMATICS CENTER

These facilities are located on the second floor of Frist Hall. See Vanderbilt University School of Nursing: Computing Services.
VANDERBILT UNIVERSITY SCHOOL OF NURSING:
OTHER GENERAL INFORMATION

CHANGE OF ADDRESS and TELEPHONE NUMBER

Students who change their local or permanent mailing address or telephone number are expected to notify the School of Nursing Registrar (211 Godchaux Hall) immediately. Candidates for degrees who are not in residence should keep the Nursing School Registrar informed of their current mailing address and telephone number. You may change your address online at https://webapp.mis.vanderbilt.edu/student-search. You will need your VUNet ID and E-password. Change of Address forms are available in the VUSN Program Coordinator for the Office of the Registrar, Pat Seitz (216 Godchaux Hall). You may also find the form online at http://www.registrar.vanderbilt.edu/academicrec/address.htm

LOST AND FOUND

For items that have been lost or found in the School of Nursing facilities, please see the School of Nursing receptionist, Ellen Smogur.

COMMUNICATION AT VUSN

Contacting a member of the Faculty: Students are encouraged to stay in close contact with their faculty advisers and individual faculty. The faculty are available to help with concerns relating to course content, examinations, and writing assignments. Faculty are eager to be of assistance to students but are also involved in teaching, research and practice. Therefore, it is important that students make an appointment to see a faculty member. We suggest that you use e-mail or voice mail to arrange a time to see a faculty member. Please do not plan to just drop by.

Emergency Phone Calls: Please remember to give your families, day cares and babysitters your schedule each semester so that they will know where you are each day and a phone number where you can be reached. If there is an emergency and a family member tries to call you by calling the School of Nursing receptionist, she will have to make a number of internal calls to find out your schedule and determine whether you are in class or in clinical. She will then have to make several more calls to reach you at your clinical site. All of these calls can take a lot of time and this system is not advisable in an emergency situation. If you have small children, you might want to consider investing in a pager or a cell phone equipped with a vibrating ringer. In any case, it is of utmost importance that you be diligent in informing caregivers where you are each day of the week.

E-mail: All full-time faculty, staff, and students can be reached via e-mail from any computer terminal in the Frist Nursing Informatics Center or through internet access. It is expected that students check e-mail frequently and use e-mail to communicate with faculty. E-mail is the preferred way for faculty and staff to contact students.

Voice Mail: Most faculty and staff are on the Vanderbilt Voice Mail System. If the person you are trying to contact does not answer the phone after five rings, the voice mail system will automatically pick up your call, and you can leave a message 24 hours a day.

VUSN Hotline: Students may access the Hotline by calling 322-VUSN. The Hotline has information regarding VUSN special events, FNIC hours, inclement weather and other class information from faculty members. The Hotline can be accessed 24 hours a day.

Faculty/Staff Mailboxes: Mailboxes for faculty and staff are located in the mailroom behind the receptionist’s desk (Room 150B Nursing Annex).

Student Bulletin Boards: Bulletin Boards in the vending machine area of the Annex Lobby are available for students to post “for sale” notices, etc. Housing notices are posted on the bulletin board in the Admissions Office suite on the second floor of Godchaux Hall. Notices should be taken to Cheryl Feldner in the Admissions Office for posting.
LIBRARY COPIER FOR STUDENT USE

Cards for use in copiers in the Eskind Library may be purchased and credited at the Eskind Biomedical Library.

COMMODORE CARD ACCOUNT/STUDENT ID

The Commodore Card is a debit account tied to your student ID. It is used for making cash-free purchases at all campus locations that accept the Commodore Card as a method of payment, including dining halls, Varsity Markets, VU Meal Plans, Bookstores, vending, laundry, copy machines, Student Health, and a variety of other University locations. Students may put money on their Commodore Card account at http://www.Vanderbilt.edu/Commodorecard or by visiting the Commodore Card Office located in the Sarratt Student Center, Room 184. Use of this non-transferable card is restricted to the person whose picture and signature are on the card. If you have any questions regarding the Commodore card, please call (615) 322-2273.

PARKING

Distance students who will only be on campus during the required face-to-face block sessions and need a parking space have the following options:

- Use the automated pay stations located at Wesley Place Garage (2043 Scarritt Place) or Terrace Place Garage (21st & Terrace Avenue). Daily coin box rate is $10.00/day on weekdays and $5.00/day on Saturday and Sunday. The most convenient garage would be Wesley Place Garage as it is located across the street from the School of Nursing. Additional assistance or questions should be directed to Central Parking in Nashville at (615) 259-3898.

Students who live nearby and plan on using the resources available at Vanderbilt beyond the face-to-face block sessions, may purchase a regular week-day parking permit from VUMC Parking Facilities located on the ground level in the VUH Garage across from the hospital (615-936-1215). All VUSN students purchasing parking permits are required to park in the South Garage located at the corner of 25th & Pierce. Students need to present their VUMC ID, and current state vehicle registration certificate when registering. The student will receive an access card that operates the entry and exit gates, and a decal. Decals for additional vehicles may be obtained at no additional charge. Replacement cards for a lost card will incur a $5.00 charge.

Students who are already Vanderbilt employees may continue to use their valid access card for that garage.

HEALTH INSURANCE

All Vanderbilt students are required to have accident/illness insurance coverage acceptable to the University. Graduate and Professional students registered in degree programs of four or more credits or who are actively enrolled in research courses that are designated by VU as full-time enrollment, are automatically enrolled and billed for the student injury and sickness insurance plan. This Coverage is for an entire academic year.

If students are covered by their own health insurance, they must waive the University insurance coverage. Students may waive insurance coverage at www.gallagherkoster.com. Please note this
process is not applicable to international students. They will be referred to the International Student and Scholar Service in order to waive their insurance.

All Vanderbilt employees must waive Student Health Insurance if they are covered by any other health insurance (including Vanderbilt Employee Health Insurance).

Students who are not participating in the University-sponsored health plan need to keep a copy of their health insurance card or the name, address, group, and policy number of their insurance coverage with them. For more information about insurance coverage, call Kristy Miller, Insurance Liaison at Student Health at (615) 343-4688.

VANDERBILT UNIVERSITY SCHOOL OF NURSING:
STUDENT ORGANIZATIONS

SIGMA THETA TAU INTERNATIONAL

The Iota chapter of Sigma Theta Tau International, the honor society of nursing, was installed at Vanderbilt University on June 3, 1953. Sigma Theta Tau International is a professional organization rather than social, and its purpose and functions may be compared to other honor societies. Sigma Theta Tau International is a member of the Association of College Honor Societies. Election to membership in the society is limited to students who have shown marked qualities of character, leadership, and ability in nursing and who have maintained a high scholastic average. Students in the DNP program are eligible for membership after having completed ¼ of the required graduate curriculum.

The Iota chapter has a call for new members once each year. Application deadlines vary each year but generally occur early in the Spring Semester. For further information regarding Iota Chapter, refer to the webpage at http://www.nursing.vanderbilt.edu/organizations/STT/.

BLACK STUDENT NURSES ORGANIZATION

In the early 1990s, the Black Student Nurses Organization (BSNO) was founded by a group of Vanderbilt University School of Nursing African-American students. The students felt a need for an organization that focused on the socio-cultural needs of African-American nursing students. BSNO also focused on mentoring of the first-year nursing students by the second-year students. A host of activities were held during the year to assist students with exploring the roles of advanced practice nurses in the health workforce. Since that time, the BSNO has served as a resource network for many students. In 2005, several of the BSNO members became charter members of the Nashville Chapter of the National Black Nurses Association. By this professional affiliation, the BSNO will continue to make local and national contributions to nursing.
VANDERBILT UNIVERSITY SCHOOL OF NURSING:
TRADITIONS

STUDENT EVENTS

A number of formal and informal student events are planned each year.

1. **A Pinning Ceremony** is planned for the end of each semester after students complete their degree requirements.
2. **Brown-Bag Lunches** and continental breakfasts with the Dean.
3. **Martin Luther King, Jr. lecture and reception** in January. Students are also invited to hear other speakers who may be visiting the School.

CLASS PICTURE - COMPOSITE

Students who intend to graduate in May, August, or December will be eligible to have their pictures taken for the master composite which hangs in the entry of Godchaux Hall. A photographer will be on campus in December and January to take individual photographs. You will receive a notice via e-mail advising you when and where to sign up. The cost is $25.95 for your picture proofs and an 11 x 14 copy of the master composite. It is important that you make every effort to schedule an appointment when the photographers are on campus, as makeups are difficult and costly. You will have the opportunity to purchase additional photographs if you wish. Regalia will be provided for the purpose. For additional information, contact Sarah Ramsey, 217 Godchaux Hall (615) 343-3334.

GRADUATION AND COMMENCEMENT

To participate in the Commencement ceremony, degree candidates must have satisfactorily completed all curriculum requirements, have passed all prescribed examinations, and be free of all indebtedness to the University. The University holds its annual Commencement ceremony in May at the end of the spring semester. A student completing degree requirements will be officially graduated, however, at the close of the semester in which the degree is earned, with such graduation recorded on the student’s permanent record. Graduations are posted on diplomas three times per year: May, August, and December. Students who graduate at the close of summer school (August) or the fall semester (December) are encouraged to join spring graduates in the next graduation ceremony. Those unable to do so may receive their diplomas by mail.

INVESTITURE

The School of Nursing Investiture Ceremony immediately follows the University Commencement ceremony in May. It is at Investiture that each graduate is adorned or “invested” with the academic hood signifying completion of the doctorate of nursing practice degree. A reception for all the graduates and their families and friends follows the Investiture ceremony. Specific instructions concerning Commencement and Investiture are mailed to August, December, and May graduates during the month of March.

Graduates will receive information from both the School of Nursing and the University Registrar’s office. For further information regarding Commencement and Investiture, contact Sarah Ramsey, 217 Godchaux Hall (615) 343-3334.
HONORS AND AWARDS

Founder’s Medal: The Founder’s Medal, signifying first honors, was endowed by Commodore Cornelius Vanderbilt as one of his gifts to the University. The Founder’s Medal is conferred annually upon the graduating student in the School of Nursing who, in the judgment of the faculty, has achieved the strongest record in the areas of professional and academic performance in meeting the requirements for the Master of Science in Nursing degree or Doctor of Nursing Practice degree. In order to receive the Founder’s Medal, the graduate must attend Commencement and Investiture.

The Alumni Association Award for Excellence in Service and Leadership to School or Community: Students are nominated from the graduating class by faculty and their peers. Standards of selection are that the student must display leadership and ongoing commitment to community service. They must reflect a positive image of VUSN to the community through hands-on volunteerism. Finally, they must demonstrate enthusiasm and support of VUSN among classmates and faculty through leadership and involvement in school activities.

The VUSN Alumni Association Board of Directors Student Relation Committee reviews nominations and selects the award recipient with approval of the Dean.

SCHOOL OF NURSING PINS

The Dean of the School of Nursing purchases an official School of Nursing pin guard signifying the DNP for each student. You will be asked to complete an order form for your pin guard, including your school, program, name, address, and phone number. The pin guard will be awarded in May, August and December at the pinning ceremonies to students who have completed all degree requirements.

FORMS

Vanderbilt University School of Nursing forms may be found on the VUSN web site at http://www.nursing.vanderbilt.edu. Click on “Resources for Current Students,” “Academic Support Services,” “DNP Enrollment Action Forms.”
