Report Other Occurrence

The reporting system is used (similar to the legacy Veritas system) to report any risk, professional liability or safety occurrence, observed by or involving a Vanderbilt University School of Nursing student, staff, or faculty member. Any type of incident may be reported including but not limited to risk management issues such as clinical related occurrences, student injury or near miss when in a clinical setting, bullying, incivility, and discrimination. There are other VUSN and VU resources available to resolve concerns related to programs of study and courses. Additional resources are listed in the *VUSN Student Handbook* section entitled VUSN: Academic Policies.

All reports entered into Origami Risk will be reviewed within a 48-hour period by VU risk management personnel and certain reports will trigger notification to additional departments, for example, Student Access Services, Equal Opportunity and Access, or Title IX. An aggregate report of VUSN incidents will be provided to Dean Linda Norman.

It is important that all students, staff and faculty feel safe reporting any incident they desire without fearing retribution. It is the goal of the university to encourage reporting to best respond to perceived and actual risk occurrences. The VU Risk Management Office is available by emailing [riskandinsurance@vanderbilt.edu](mailto:riskandinsurance@vanderbilt.edu) or should you have any immediate questions, [contact us](#).
