Technical Problem Solving

▶ REBOOT/RESTART your computer!!!

▶ Look for Patterns
  — When did you first notice the problem?
  — Check basics first: mistyped passwords
  — What happens right before and after your attempt to do what you need to do?
  — Has anything changed on your computer or with your personal information (i.e. did you recently change your name or install new software or updates?)
  — Communicate the evidence clearly (i.e. provide the course and section number, the content area heading, your Vunet username, wording of any error messages)
